

Town of Kennebunkport

Annual Report 2016

July 4, 2015, Goose Rocks Beach Parade

**TOWN OF KENNEBUNKPORT, MAINE
GENERAL INFORMATION**

“Located sixteen miles east-southeast of Alfred, twenty-five miles from Portland. Formerly known as Arundel. Visited during the summer as early as 1602 by fishermen. First permanent settlement made by Richard Vines in 1629. Brought under the control of Massachusetts and incorporated in 1653. Placed under the jurisdiction of Saco for a short time in 1688. Re-incorporated under the name of Arundel in 1717. Name changed February 19, 1821.”

TOWN REPORT DEDICATION

In Appreciation of

Kenneth Nathaniel “Sonny” Hutchins

Kennebunkport native Kenneth Nathaniel “Sonny” Hutchins, is a remarkable, giving man who has made many contributions to the community. He is the longest serving member of the Kennebunkport Fire Department joining in October 1946, and the last to have fought the fire of 1947. He was also chief of the Wildwood Fire Company for 16 years, where you can still find him helping with the fundraising and collecting money for bean suppers. Between the 1960s to the 1990s, he worked as a ballot clerk and served on the Budget Board and Police Commission. He is also a Shriner and member of the Arundel Masonic Lodge #76.

Sonny has lived in Kennebunkport his entire life except for a stint in the Army from 1951-1953. In fact, he lives in the same house that he spent his childhood; went to grammar school when it was at the School Days Apartments; and graduated from Kennebunkport High School. He has three sons and one daughter, and numerous grandchildren.

Sonny followed in his father’s footsteps working in the lobster retail business. When he was discharged from the Army, he purchased Port Lobster in March 1953. And, after 63 years, he sold his business but is still a familiar face, as he continues to work there driving trucks and doing deliveries. He knows the business inside out, and Port Lobster would be lost without him.

The photo above accurately depicts Sonny’s pleasant and good-natured demeanor with his ready smile. His friends describe him as a positive and modest man with never a bad word to say about anyone, and who is always willing to lend a helping hand. He sets the bar for community service and is one of the many people who helps make Kennebunkport such a special place to live.

TOWN OF KENNEBUNKPORT

**TOWN WARRANT
ANNUAL TOWN MEETING
June 13 and 17, 2017**

State of Maine

County of York, SS

To: Tracey O’Roak, Constable of the Town of Kennebunkport, in the County of York, State of Maine.

GREETINGS:

You are hereby required in the name of the State of Maine to notify and warn the voters of the Town of Kennebunkport in said County of the Town Meeting described in this warrant.

To the voters of Kennebunkport: You are hereby notified that the Annual Town Meeting of this municipality will be held at the Village Fire Station, 32 North Street in said Town on Tuesday, the Thirteenth (13th) day of June A.D. 2017, at 8:00 o'clock in the forenoon for the purpose of acting on Articles numbered one (1) and one a (1a) as set out below. The polls for voting on Articles 1 and 1a shall be opened immediately after the election of the Moderator at 8:00 a.m. on June 13, 2017, and shall close at 8:00 p.m. While the polls are open, the Registrar of Voters will hold office hours to accept the registration of any person eligible to vote, to accept new enrollments, and to make any necessary corrections or changes to any names or addresses on the voting list. The continuation of said meeting will be held in the auditorium of the Consolidated School building in said Town on Saturday, the seventeenth (17th) day of June A.D. 2017, at 9:00 o'clock in the forenoon for the purpose of acting on Articles numbered 2 through 44 as set out below.

ARTICLE 1. To choose a Moderator to preside at said meeting.

ARTICLE 1a. To elect under the provisions of Title 30-A, M.R.S.A. Section 2528, the following Town Officers: one Selectmen, Assessors, and Overseers of the Poor, for a term of three years and one Director of R.S.U. #21, for a term of three years and to vote on the following referendum Questions 1 through 3:

QUESTION 1
AMENDMENT TO THE SHELLFISH CONSERVATION ORDINANCE

Shall an ordinance entitled "June, 2017 Amendment to the Shellfish Conservation Ordinance" be enacted?

**KENNEBUNKPORT SHELLFISH CONSERVATION
ORDINANCE**

1. **Authority:** This Ordinance is enacted in accordance with 12 M.R.S.A. §6671.
2. **Purpose:** To establish a shellfish conservation program for the Town of Kennebunkport that will insure the protection and optimum utilization of shellfish resources within its limits. These goals will be achieved by means that may include:
 - a. Licensing
 - b. Limiting the number of shellfish harvesters
 - c. Restricting the time and area where digging is permitted
 - d. Limiting the minimum size of clams taken
 - e. Limiting the amount of clams taken daily by a harvester
3. **Shellfish Conservation Committee:** The Shellfish Conservation Program for the Town of Kennebunkport will be administered by the Shellfish Conservation Committee consisting of a minimum of five (5) members and a maximum of seven (7) members, including the Shellfish Warden who may be a non-resident, to be appointed by the Selectmen of the Town of Kennebunkport for terms of three (3) years. No more than three (3) members shall possess current commercial shellfish licenses. The Shellfish Conservation Warden may not possess a Commercial Shellfish License.

The Committee's responsibilities include:

- a. Establishing annually in conjunction with the Department of Marine Resources the number of shellfish digging licenses to be issued.
- b. Surveying each clam-producing area at least once each three-years to establish size distribution and density, and annually estimating the status of the Town's shellfish conservation.
- c. Submitting to the Board of Selectmen proposals for the expenditures of funds for the purpose of shellfish conservation.

- d. Keeping this Ordinance under review and making recommendations for its amendments.
- e. Securing and maintaining records of shellfish harvest from the Town's managed shellfish areas and closed areas that are conditionally opened by the Department of Marine Resources.
- f. Recommending conservation closures and openings to the Board of Selectmen in conjunction with the Area Biologists of the Department of Marine Resources.
- g. Submitting an annual report to the municipality and the Department of Marine Resources covering the above topics and all other committee activities.
- h. Recommending daily harvest limits to the Board of Selectmen.

4. **Definitions**

- a. Resident: The term "resident" refers to a person who has been domiciled in this municipality for at least three months next prior to the time his claim of such residence is made.
- b. Nonresident: The term "nonresident" means anyone not qualified as a resident under this Ordinance.
- c. Shellfish, Clams and Intertidal Shellfish Resources: When used in the context of this Ordinance, the words "shellfish," clams," and "intertidal shellfish resources" mean soft shell clams (*Mya arenaria*).
- d. Municipality: Refers to the Town of Kennebunkport, Maine.
- e. Shellfish Conservation Warden: When used in the context of this Ordinance, the words "Shellfish Warden" and "Clam Warden" mean Shellfish Conservation Warden.

5. **Licensing**: Municipal Shellfish Digging License is required. It is unlawful for any person to dig or take shellfish from the shores and flats of this municipality without having a current license issued by this municipality as provided by this Ordinance.

- a. Designation, Scope and Qualifications:
 - i. Resident Recreational Shellfish License: The license is available to residents and real estate taxpayers of this municipality and entitles the holder to dig and take no

more than one peck of shellfish in any one day for the use of himself and his family.

- ii. Nonresident Recreational Shellfish License: The license is available to any person not a resident of this municipality and entitles the holder to dig and take not more than one peck of shellfish in any one day for the use of himself and his family.
 - iii. Resident Commercial Shellfish License: The license is available to residents of this municipality and entitles the holder to dig and take no more than the amount of shellfish as recommended by the Shellfish Conservation Committee and approved by the Board of Selectmen in any one day, unassisted only. Commercial license holders must keep a daily log of clams harvested. This license shall be revoked if the license holder ceases to reside in the municipality.
 - iv. Non-resident Commercial Shellfish License: The license is available to nonresidents of this municipality and entitles the holder to dig and take no more than the amount of shellfish as recommended by the Shellfish Conservation Committee and approved by the Board of Selectmen in any one day, unassisted only. Commercial license holders must keep a daily log of clams harvested.
 - v. Daily Recreational Shellfish License: The license is available to residents and non-residents of this municipality and entitles the holder to dig and take no more than one peck of shellfish in any one day for the use of himself and his family. The license is good only for the date stated on the license.
 - vi. License must be signed: The licensee must sign the license to make it valid.
- b. Application Procedure: Any person may apply to the Town Clerk for the licenses required by this Ordinance on forms provided by the municipality.
- i. Contents of Application: The application must be in the form of an affidavit and must contain the applicant's name, current address, birth date, height, weight, signature and whatever information the municipality may require.

- ii. Misrepresentation: Any person who gives false information on a license application will cause said license to become invalid and void.
- c. Fees: The fees for the licenses shall be set by the Municipal Officers upon the approval of the Commissioner of the Department of Marine Resources and must accompany in full the application for the respective license. The Town Clerk shall pay all fees received to the Town Treasurer. Fees received for shellfish licensing shall be used by the Town for shellfish management, conservation and enforcement.
- d. Limitation of Diggers: Clam resources vary in density and size distribution from year to year and over the limited soft clam-producing area of the Town. It is essential that the Town carefully husband its shellfish resources. Following the annual review of the Town's clam resources, its size distribution, abundance, and the Warden's reports, as required by Section 3, the Shellfish Conservation Committee in consultation with the D.M.R. Area Biologist will determine whether limiting commercial or recreational shellfish licenses is an appropriate shellfish management option for the following year.
 - i. Prior to January 1, the Committee shall report its findings and document recommendations for the allocation of commercial and recreational licenses to be made available for the following license-year to the Commissioner of Marine Resources for concurrence.
 - ii. After receiving approval of proposed license allocations from the Commissioner of Marine Resources and prior to January 1, the Shellfish Conservation Committee shall notify the Town Clerk in writing of the number and allocation of shellfish licenses to be issued.
 - iii. Notice of the number of licenses to be issued and the procedure for application shall be published in a trade or industry publication, or in a newspaper or combination of newspapers with general circulation that the Municipal Officers consider effective in reaching persons affected, not less than ten (10) days prior to the period of issuance. This information shall also be posted in the municipal offices until the period concludes.
 - iv. The Town Clerk shall issue licenses to residents and nonresidents as allocated (paragraph 5.D.1) from January 1 and until March 31 after which license shall be

issued without regard to residency on a first come, first served basis or by lottery.

- e. License Expiration Date: Each license issued under authority of this Ordinance expires at midnight on the December 31st next following date of issuance. Each daily license issued under the authority of this Ordinance shall be valid only for the date stated on the license.
- f. Reciprocal Harvesting Privileges: Licenses from any other municipality cooperating with this municipality on a joint shellfish management program may harvest shellfish according to the terms of this license.
- g. License Fee Waiver: Recreational shellfish license fees will be waived for residents 65 years or older and 12 years or younger.
- h. A shellfish license is not available to anyone whose municipal or state shellfish license is under suspension or who has been convicted of violating Maine marine statutes or state wildlife statutes within a prior 24-month period or who has a valid commercial license in another Maine municipality.
 - i. Suspension/Revocation: A shellfish license issued under this Ordinance is subject to suspension as follows:
 - i. In cases where a court enforcement proceeding is brought under this Ordinance or State law:
 - a. in the case of a first court judgment finding any violation, an automatic suspension of 60 days;
 - b. in the case of a second court judgment finding any violation against the same licensee, an automatic revocation of the existing license, and the person found in violation is prohibited from re-applying for a license under this Ordinance for one year.
 - ii. In cases where the Shellfish Warden believes that a licensee has violated this Ordinance, he may give notice to the licensee of such belief. If, after providing the licensee with an opportunity to rebut any evidence he has, the Clam Warden concludes that a violation has occurred, he may issue a notice of suspension not to exceed 30 days.
 - a. A licensee who has received a notice of suspension may appeal to the Board of Selectmen by filing a written request with the Town Clerk within seven (7) days of the

day the Clam Warden's decision is rendered. Upon filing the request, the suspension is stayed pending the Board's decision.

- b. The Board of Selectmen shall hear the appeal as soon as practicable and shall provide the appellant with at least 7 days written notice of hearing. It shall hear all the evidence and decide whether to uphold or reverse the decision of the Clam Warden. The rules of evidence do not apply.

- 6. **Conservation Credits:** A licensed commercial shellfish harvester must obtain a total of ten (10) conservation credit points between January 1 and December 31 in order to remain eligible to obtain a license for the next licensing period.

Documented certification in any of the following activities results in granting of conversation credit as specified:

Participation in any one (1) of the following activities shall deem a harvester eligible to receive five conservation credit points per activity:

- a. Participation in a Kennebunkport Shellfish Conservation Committee sponsored shellfish re-seeding project.
- b. Participation in a Kennebunkport Shellfish Conservation Committee sponsored shellfish survey.

If the Kennebunkport Shellfish Conservation Committee does not sponsor both activity 6(a) and 6(b) above during a single calendar year then participation in the single activity sponsored shall be valued at ten (10) conservation credit points.

All records and conservation credit logs will be maintained by the shellfish warden and will be held in the shellfish warden's office.

Determination of conservation credit completion - By the first business day of January the shellfish warden shall compile documented conservation time of each individual harvester and forward a list of those harvesters determined to have satisfied the conservation credit requirement to the Town Clerk.

Harvesters included on the list submitted by the shellfish warden shall be eligible for a commercial license for the upcoming license year if a notice of intent has been filed by the deadline.

Harvesters will be notified of their status in terms of conservation credit completeness by the shellfish warden by December 1 for credits earned. A final status will be mailed by December 10.

Approved absence from conservation credit requirement - Harvesters who have not completed a full ten (10) points of conservation credit in a given license year are only eligible for a license if their absence from participation in conservation credit activities is approved by the shellfish warden or marine resource committee.

Approved absences may include an extended and documented illness, or an extended illness of an immediate family member that is under the immediate care of the harvester.

Requests for a determination of approved absence must be made in writing to the shellfish warden and must be submitted no later than December 15. The request shall include evidence to support an approval of absence determination.

If the absence is approved, the harvester will be required to make up the remaining conservation credit points during the next license year.

If the absence is not approved, the harvester will not be eligible to obtain a license.

Appeal procedure - A harvester may appeal any determination of eligibility made by the shellfish warden. Request for appeals must be made in writing to the Shellfish Conservation Committee by December 31. Appeals will be decided by the Shellfish Conservation Committee during its January meeting. Decisions shall be provided to the town clerk in writing no later than five (5) days after the meeting.

7. **Opening and Closing of Flats:** The Municipal Officers, upon the approval of the Commissioner of Marine Resources, may open and close areas for shellfish harvest. Upon recommendations of the Shellfish Conservation Committee and concurrence of the Department of Marine Resources Area Biologist that the status of shellfish resource and other factors bearing on sound management indicate that an area should be opened or closed, the Municipal Officers may call a public hearing, and shall send a copy of the notice to the Department of Marine Resources. The decision of the Municipal Officers made after the hearing shall be based on findings of fact.

It shall be unlawful for any person to harvest, take or possess shellfish from any areas closed by the Town of Kennebunkport in accordance with DMR Regulation, Chapter 7. Harvesting shellfish in a closed area

is a violation of this municipality's ordinance and is punishable under MSRA Title 12 §6671.

Boundaries of conservation closures are explicitly defined in the conservation closure application submitted by the Town of Kennebunkport to DMR and are part of the resulting permit issued by DMR. These permits are posted at the town office and online: <http://www.maine.gov/dmr/shellfish-sanitation-management/programs/municipal/ordinances/towninfo.html>.

8. **Minimum Legal Size of Soft Shell Clams:** It is unlawful for any person to possess soft shell clams within the Town of Kennebunkport, County of York, that are less than two (2) inches in the longest diameter except as provided by Subsection B of this section.
 - a. **Definitions:**
 - i. **Lot:** The word "lot" as used in this Ordinance means the total number of soft shell clams in any bulk pile. Where soft shell clams are in a box, barrel, or other container, the contents of each box, barrel, or other container constitutes a separate lot.
 - ii. **Possess:** For the Purpose of this section, "possess" means dig, take, harvest, transport, or hold soft shell clam shellstock.
 - b. **Tolerance:** Any person may possess soft shell clams that are less than two (2) inches if they comprise less than 10% of any lot.
9. **Other Limitations:**
 - a. The placement of clams harvested under this section in a closed container is prohibited.
 - b. The harvesting of clams is permitted only during daylight hours which shall be defined as between one hour prior to sunrise and one hour past sunset.
10. **Penalty:** A person who violates this Ordinance shall be punished as provided by 12 M.R.S.A. §6671 (10).
11. **Effective Date:** This Ordinance, which has been approved by the Commissioner of Marine Resources, shall become effective after its adoption by the municipality provided a certified copy of the Ordinance is filed with the Commissioner within twenty (20) days of its adoption.

- 12. **Period of Ordinance:** This Ordinance shall remain in effect until repealed by the Municipality or rescinded by the Commissioner of the Department of Marine Resources.
- 13. **Separability:** If any section, subsection, sentence or part of this Ordinance is for any reason held to be invalid or unconstitutional, such decisions shall not affect the validity of the remaining portions of this Ordinance.
- 14. **Repeal:** Any ordinance regulating the harvesting or conservation of shellfish in the Town and any provisions of any other Town ordinance that is inconsistent with this Ordinance is hereby repealed.

[Note of explanation: This amendment will remove the requirement that the Shellfish Warden be a resident of Kennebunkport as well as add more restrictive language regarding harvesting shellfish in a closed area.]

**QUESTION 2
AMENDMENT TO THE ADMINISTRATIVE CODE**

Shall an ordinance entitled "June, 2017 Amendment to the Kennebunkport Administrative Code" be enacted? (A true copy of which is on file in the Town Clerk's Office and is incorporated by reference.)

[Note of explanation: This amendment will remove the requirement that the Chairman of the Shellfish Conservation Committee serving as Shellfish Warden be a resident of Kennebunkport]

QUESTION 3
ENACTMENT OF A KEY LOCKBOX ORDINANCE

Shall an ordinance entitled "Key Lockbox Ordinance" be enacted?

TOWN OF KENNEBUNKPORT
KEY LOCK BOX ORDINANCE

SECTION 1: TITLE.

This Ordinance shall be known as the Town of Kennebunkport Key Lock Box Ordinance (the "Ordinance").

SECTION 2: AUTHORITY.

This Ordinance is enacted in accordance with 30-A M.R.S.A 3001 *et. seq.*, as may be amended.

SECTION 3: PURPOSE.

The Town of Kennebunkport determines that the health, safety and welfare of residents and property owners of the Town are promoted by a requirement that certain properties shall have a key lock box installed on the exterior of the structure(s) or at the gated entrance to aid the Kennebunkport Fire Department (KPF) and Kennebunkport Emergency Medical Services (KEMS) with gaining access to or within a structure when responding to calls for emergency service, and to aid access into or within a building that is secured or is unduly difficult to gain entry to due to being either unoccupied or the occupants being unable to respond.

SECTION 4: DEFINITIONS.

Fire Chief: the person duly appointed as the Fire Chief of the Town of Kennebunkport.

Structure(s): a habitable space with floor to ceiling height of over 7'-0".

Key Lock Box: a secured box or vault of a size and style approved by the Fire Chief or his/her designee, which contains key(s) for the exclusive use of the KPF and KEMS to access the property and premises in an emergency.

SECTION 5: INSTALLATION REQUIRED.

New Structures: The following structures built after October 1, 2017 shall be equipped with a key lock box at or near the main entrance or such other location as required by the Fire Chief or his/her designee:

- Commercial and industrial structure; and
- All structures, including residential structures, protected by an automatic fire alarm system or automatic suppression system; and
- All properties having a security gate at the vehicular entrance to the property.

Existing Structures: Additions or renovations greater than \$20,000 to any structure that has an automatic fire alarm system or an automatic suppression system existing as of October 1, 2017, shall be equipped with a key lock box at or near the main entrance or such other location as required by the Fire Chief or his/her designee.

SECTION 6: GENERAL REQUIREMENTS.

- A. The approved manufacturer of the lock box system used in the Town of Kennebunkport shall be by the Knox Company of Phoenix, AZ. Brand name "Knox Box".
- B. The Fire Chief or his/her designee shall approve the location and style of the key lock box at the time the building permit is issued. All properties subject to this Ordinance shall have the key lock box installed and operational prior to the issuance of an occupancy permit. Or soon as the property is monitored by a 3rd party company.
- C. The number of keys in the lock box cannot exceed the maximum number recommended by the Knox Company. Each key shall be labeled.
- D. All properties with an electronic security gate shall have the lock box installed outside of the gate with the gate access code and required keys inside.
- E. The Fire Chief or his/her designee shall approve any changes in the lock box installation.
- F. Purchase, installation and maintenance of any required lock box is the sole responsibility of the property owner and/or occupant.

SECTION 7: MAINTENANCE.

The owner or operator of the property shall immediately notify the Fire Chief or his/her designee when any locks are added, changed or rekeyed. Additional labeled keys, access cards or access codes shall be added to the lock box immediately, if old keys, access cards or access codes are no longer effective.

SECTION 8: VIOLATIONS.

Any entity violating any of the provisions of this Ordinance or failing or neglecting or refusing to obey any order or notice of the Fire Chief or his/her designee issues hereunder shall be subject to a penalty as provided herein.

SECTION 9: CIVIL PENALTIES.

Any person who is found to be in violation of any provision of this Ordinance shall be subject to a civil penalty of not less than five hundred dollars (\$500.00) and not more than two thousand five hundred dollars (\$2,500.00), or as otherwise provided by 30-A M.R.S.A. §4452, as may be amended from time to time. Each violation of a separate provision of this Ordinance, and each day of violation, shall constitute separate offenses. In addition, if the Town is the prevailing party in an enforcement action, said person shall also be liable for all reasonable expenses incurred by the Town in the enforcement of this Ordinance, including, but not limited to, attorney's fees and costs. All civil penalties shall inure to the benefit of the Town of Kennebunkport.

SECTION 10: SEVERABILITY, AMENDMENTS AND ADOPTION.

Severability: The invalidity of any portion of this Ordinance shall not invalidate any other part thereof.

Amendments: This Ordinance may be amended from time to time in accordance with the provisions of 30-A M.R.S.A. §3002, as may be amended.

Adoption: This Ordinance was submitted to the voters of the Town of Kennebunkport and shall be effective upon its adoption by Town Meeting.

[Note of explanation: This ordinance will require that certain properties have a key lock box installed on the exterior of the structure or at the gated entrance to aid the Kennebunkport Fire Department and Kennebunkport Emergency Medical Services with gaining access when responding to call for emergency service.]

Article 2: To see if the Town will vote to authorize the Town Treasurer, with the advice and approval of the Municipal Officers on behalf of the Town to sell and dispose of Real Estate acquired by the Town for nonpayment of taxes thereon, and to execute quitclaim deeds on such terms as they deem advisable, and to authorize the Treasurer to discharge unmatured liens on payment of taxes, interest and costs.

Selectmen recommend adoption of this article– Voted 4-0.

Article 3: To see if the Town will vote to authorize the Town Treasurer, with the advice and approval of the Municipal Officers on behalf of the Town, to waive the foreclosure of any tax lien mortgage by recording a waiver of foreclosure in the York County Registry of Deeds for any real estate title to which they deem not in the best financial interest of the Town to hold, said authorization to waive not to prevent the Town Treasurer, with the advice and approval of the Municipal Officers, from later foreclosing on said tax lien pursuant to law, as they deem advisable.

Selectmen recommend adoption of this article– Voted 4-0.

Article 4: To see if the Town will vote to make all real and personal property taxes due and payable upon presentment of bills and to charge seven percent (7.00%) per annum on the first half if unpaid after September 11, 2017 (or 45 days after the date of commitment if commitment is after July 28, 2017) and on the second half if unpaid after March 12, 2018.

Selectmen recommend adoption of this article– Voted 4-0.

Article 5: To see if the Town will vote to set the interest rate to be paid by the town on abated taxes at five percent (5.00%) for the fiscal year 2018.

Selectmen recommend adoption of this article– Voted 4-0.

Article 6: To see if the Town will vote to authorize the Selectmen to accept easement deeds on behalf of the Town granting the Town the right to plant and maintain certain trees on private property located within the Town.

Selectmen recommend adoption of this article– Voted 4-0.

Article 7: To see if the Town will vote to authorize Binnacle Hill Development, LLC to open the road on New Biddeford Road to install a sewer line to connect to the Town's sewer system and to accept the proposed unconditional gift of the sewer extension providing that the developer complies with all the requirements of the Sewer Use Ordinance.

A condition of acceptance is the requirement that the applicant furnish the Town with an irrevocable letter of credit or cash or cash equivalent in a form acceptable to the Board of Selectmen to ensure proper completion of the project. The guarantee shall be in an amount equal to one hundred twenty-five percent (125%) of the estimated cost of the project and shall remain in effect until after the contractor's warranty period has expired or until any adjustments are made by the Sewer Superintendent.

Selectmen recommend adoption of this article– Voted 4-0.

Article 8: To see if the Town will vote to authorize the Tax Collector or Treasurer to accept prepayments of taxes not yet committed pursuant to 36 M.R.S.A. § 506.

Selectmen recommend adoption of this article– Voted 4-0.

Article 9: To see if the Town will vote to authorize the Selectmen to accept unconditional and conditional gifts of money or property on behalf of the Town, other than gifts of sewer extensions, subject to ratification by the Town at an annual or special town meeting held within one year of the Selectmen's acceptance, except that such ratification shall not be required for a donation of money to the Town to supplement a specific appropriation already made, to reduce the tax assessment, or to reduce the permanent debt.

Selectmen recommend adoption of this article– Voted 4-0.

Article 10: To see what sum the Town will vote to raise and appropriate for the Administration and Community Development account.

Amount requested: \$961,512

Selectmen recommend the amount requested - Voted 4-0.

Budget Board recommends the amount requested - Voted 10-0.

Article 40: Do you favor authorizing the Board of Selectmen to issue general obligation bonds or notes in the name of the Town of Kennebunkport in a principal amount not to exceed \$450,000 for a term not to exceed 10 years, which bonds or notes may be made callable, and to use the proceeds of said bonds or notes to pay for costs of constructing and equipping a new Parks and Recreation building?

TOWN OF KENNEBUNKPORT FINANCIAL STATEMENT

1. Total Town Indebtedness

Bonds Outstanding and Unpaid	\$ 944,343.00
Bonds Authorized but Unissued	\$ 2,000,000.00
Bonds to be Issued if this Article is Approved	\$ 450,000.00
Total:	\$ 3,394,343.00

2. Estimated Costs of Proposed Bonds

At an estimated interest rate of three percent (3%), for a 10-year term, the estimated costs of this bond issue will be:

Principal	\$450,000.00
Interest	\$ 62,436.60
Total Principal & Interest to be Paid at Maturity	\$ 512,436.60

3. Validity

The validity of the bonds and of the voters' ratification of the bonds may not be affected by any errors in the above Estimated Costs of Proposed Bonds. If the actual amount of the total debt service for the bond issue varies from the estimate, the ratification by the electors is nevertheless conclusive and the validity of the bond issue is not affected by reason of the variance.

Jennifer L. Lord, Treasurer
Town of Kennebunkport

Selectmen recommend the amount requested - Voted 4-0.
Budget Board recommends the amount requested - Voted 10-0.

Article 41: To see if the Town will vote to appropriate the sum of \$2,396,728 from estimated non-property tax revenues to reduce the property tax commitment, together with all categories of funds, which may be available from the federal government, and to also use \$250,000 from undesignated fund balance and \$150,000 from the capital reserve fund balance to reduce the property tax commitment.

***Selectmen recommend the amount requested - Voted 4-0.
Budget Board recommends the amount requested - Voted 10-0.***

Article 42: Shall the Town vote to authorize the Selectmen to apply for, accept and expend from the following categories of funds as provided by the State of Maine: Municipal Revenue Sharing, Educational Certification Block Grant, Educational Tax Relief Grant, Public Library State Aid, Urban Rural Road Initiative Program, Civil Emergency Funds, Snowmobile Registration Funds, Tree Growth Reimbursement, General Assistance Reimbursement, Veterans Exemption Reimbursement, Department of Economic & Community Development Grant Program, Maine Emergency Management Agency, Homestead Exemption Reimbursement, and all other state and federal grants and funds including, when necessary, the authority to sign grant contracts, documents or other paperwork?

***Selectmen recommend the amount requested - Voted 4-0.
Budget Board recommends the amount requested - Voted 10-0.***

Article 43: To see if the Town will vote to authorize the Selectmen to carry forward unencumbered surplus fund balances on June 30, 2017, for the purposes originally appropriated and to the extent they deem advisable, such determination to be made at a properly noticed meeting of the Board of Selectmen.

***Selectmen recommend the amount requested - Voted 4-0.
Budget Board recommends the amount requested - Voted 10-0.***

Article 44: To see if the Town will vote to authorize the transfer of a 1991 E-One Federal Pumper Truck, VIN # 46J7BAA80M1003536, commonly known as Kennebunkport Engine #33, from the Town of Kennebunkport Fire Department to the Goose Rocks Fire Company with the condition that if the Goose Rocks Fire Company sells said "Engine 33", all proceeds of the sale will be used toward the purchase of fire apparatus to be owned by the Town.

Selectmen recommend adoption of this article - Voted 5-0.

HEREOF FAIL NOT TO MAKE DUE SERVICE of this Warrant and a return of your doing thereon, at a time and place of said meeting.

GIVEN UNDER OUR HANDS this 27th day of April, 2017, Kennebunkport, Maine.

INTRODUCTION TO THE FISCAL YEAR 2018 BUDGET

The fiscal year 2018 budget proposal meets the goals set by the Board of Selectmen at their annual budget goal session in December. The budget presented for your review supports the quality of life in Kennebunkport, balances the needs of the departments within a responsible fiscal framework, supports the Town's partner agencies, and continues the investment in buildings, roads and infrastructure.

The operating budget of \$7.1 million increased by \$403,145 or 6%. The Capital Outlay budget is up approximately \$1,750 or .12%. Nonproperty tax revenues are experiencing a 11.15% increase or \$273,815. As a result, the municipal portion of the tax rate, after accounting for nonproperty tax revenues, is projected to increase **1.84%**, resulting in a 5-cent increase to the municipal tax rate.

The majority of the increase (92%) in the operational budget is due to the categories outlined below:

Legal fees for Goose Rocks Beach	\$ 100,000
Communication Center contract w/ York PD	\$ 45,000
Salary increases for staff	\$ 58,080
Benefits (i.e. health insurance increase)	\$ 114,067
Insurance increases in Worker's Compensation	\$ 23,070
Contingency funding for FEMA Map appeal	\$ 30,000
Total:	\$ 370,217

The capital project continues to be focused on our 10-year road and sidewalk construction plan. There is also a request for \$250,000 in reserve funds to invest in a new Parks and Recreation building to replace the 30-year-old mobile unit, which has been the Recreation Department home since 2002. The Pier reserve account request is for \$150,000 to complete testing and design for needed repairs at Cape Porpoise Pier. Other items in the capital budget include normal equipment replacement funds and two special projects under administration. The first request is \$18,000 for a codification project, and the second is \$23,000 for a workforce housing study.

The major reasons for the increase in our revenues are due to climbing excise tax revenue (\$50,000), planning permit fee growth of \$23,728, growing fees in Goose Rocks Beach stickers and parking fines, an MDOT grant of \$50,925, homestead exemption increase of \$27,742), additional income from the sale of town property, and a one-time transfer from the Capital Reserve Fund balance of \$150,000 to offset the construction of the new Parks and Recreation building. In fiscal year 2015, the Board of Selectmen adopted a fund balance policy that maintains an unassigned fund balance in the general fund at a minimum of two months of general fund expenditures (or 18%) measured on a GAAP (Generally Accepted Accounting Principles) basis. Any unassigned funds in excess of the 18% target balance will be transferred to capital reserve accounts for projects identified in the Capital Improvement Plan. The

amount transferred at the end of fiscal year 2015 was \$686,893. I am recommending a transfer of \$150,000 to offset capital expenditures in fiscal year 2018. This will leave a balance of \$536,893 for future needs.

As in fiscal year 2017, I am recommending a reduction in the use of the undesignated fund balance to offset the tax rate. For several years, the Town has used \$300,000 each year to offset the tax commitment. Under the new policy, the unassigned fund balance is approximately \$2.8 million. A \$300,000 deduction each year represents almost 11%. The Town's budget has become more exact each year as a slow economy reduced revenues and required belt tightening on expenditures. In order to continue to count on a \$300,000 contribution, town staff must start saving \$300,000 on July 1, in order to be able to contribute to the succeeding year budget. A fund balance contribution toward the budget is deemed "normal" in most circumstances; however, I recommend that the Town reduce its reliance on the fund balance to a \$200,000 contribution or lower. My proposed budget continues to reduce the contribution by \$25,000, bringing us to a \$250,000 transfer.

On the operating side of the budget, there are several noteworthy items:

- The insurance account shows an increase of just over 16.72%. In January of 2017, the Town experienced a large increase in its worker's compensation modification rate. Although worker's compensation insurance is mostly tied to payroll and the rates for each job classification, the final premium is then multiplied by your modification rate. Last year, the Town had a .81 modification rate. This produced almost a 20% discount in our premiums. In 2017, our modification rate increased to 1.2, or almost a 40% increase from 2016 rates. The modification rate is based upon your last three years of claim experience. Unfortunately, we had some cases that resulted in lost time and medical expenses. Our Safety Committee is working on an accident investigation form for our departments and will be inspecting departments throughout the year. Our goal is to improve this rating over time; however, it will take another two years for some of the loss cases to be removed from our experience calculation.
- The legal budget has an additional \$100,000 request for the defense of the Goose Rocks Beach litigation. The additional funds would be needed to defend the Town in the case of an appeal on the title proceedings and to finish the work of the public prescriptive easement case.
- The Public Health Department will see a decrease in funding as our Director retires in June of 2017. The additional funding requested in fiscal year 2017 for the transition in staff is not needed in fiscal year 2018.
- The Communications budget includes an additional \$45,000 for additional services from York Police Department in the handling of our 911 calls. Currently, York PD is the Public Safety Answering Point (PSAP) for our 911 calls. Our local communications center then dispatches the calls once they are

transferred to us. In calendar year 2017, the State of Maine is implementing new software (from Priority Dispatch) for emergency medical dispatch (EMD), emergency fire dispatch (EFD) and in the near future, emergency police dispatch (EPD). In order to meet all new regulations, the Town would need to purchase the software, equipment, and training. The cost for these upgrades is approximately \$200,000. The other issue is that we only have one dispatcher on duty at a time. The new protocols require the dispatcher to stay on the line with the caller and give resources and support through a set of screen questions and responses. At the same time, the dispatcher needs to be on the radio with responding personnel and departments. Rather than invest in new upgrades as well as the addition of more personnel, we are proposing a contract with York PD. York will provide an enhanced level of service, handling the EMD, EFD, and eventually the EPD protocols. Kennebunkport communications will continue to dispatch to local personnel and coordinate the Police, Fire, Public Works, and KEMS services.

- The Capital Outlay budget has a slight increase in comparison to fiscal year 2017. Approximately 40% of the capital request is planned on road and sidewalk improvements. Other projects include:
 - \$41,000 is budgeted in Administration to complete two special projects.
 - One request is for \$23,000 to undertake a workforce housing study. In 2016 the Town was fortunate to hold a charrette with the Seacoast Workforce Housing Coalition to examine the need for median income housing. The current median home price is about \$500,000. The current income level would allow a family to purchase a \$275,000 home. The trend towards seasonal rentals and residents is impacting the Town's ability to function on a year-round basis, attract a local workforce, and maintain a local school population. A study would gather data on the needs for housing in our community as well as define desired outcomes for future implementation, while maintaining the quality of life and culture of Kennebunkport.
 - The second request of \$18,000 is for the codification of all town ordinances. A legal consultant reviews all ordinances ever adopted by the Town to ensure that we have an accurate representation of local laws on the books. These ordinances are then compared to state and federal law for compliance. Finally, in order to follow and enforce local ordinances, people must be able to efficiently access and reference them. Codification is the way municipalities make it easy for people to find and read the laws they are expected to follow. Codification is the process of organizing and recording all permanent ordinances adopted by the governing body into a code book in which the laws are arranged by subject matter.

- \$150,000 in reserve funds is requested for the Pier account. Currently, Cape Porpoise Pier is in need of repairs to the cribwork which may impact the bait building, deck, and pilings. The funds requested will allow us to undertake testing and design work to plan for the future upgrades in a thoughtful and cost efficient approach.
- Fire will be requesting \$30,000 to \$35,000 over the next two years for the replacement of our 1974 and 1980 brush trucks.
- Recreation’s capital reserve account has increased to \$250,000 as well as a bond for \$450,000 in fiscal year 2018 to replace the 30-year-old Parks and Recreation modular unit and the old concession/storage building. The new facility will house a concession stand, public restrooms, substantial storage, recreation department offices, and programming space.
- The Debt Service account is seeing a slight decrease in fiscal year 2018 of \$1,976. This is inclusive of the new Police Department 10-year bond and two payments toward the new Parks and Recreation building bond. The \$2.0 million bond for sewer infrastructure upgrades, which was authorized last year, will likely be split between the general fund and sewer rates, and repayment will begin in fiscal year 2019. As the Town will be retiring the 2009 road bond in 2018, the impact of these new loan payments will still allow for a decrease in our debt service schedule as outlined in our debt service schedule as shown below:

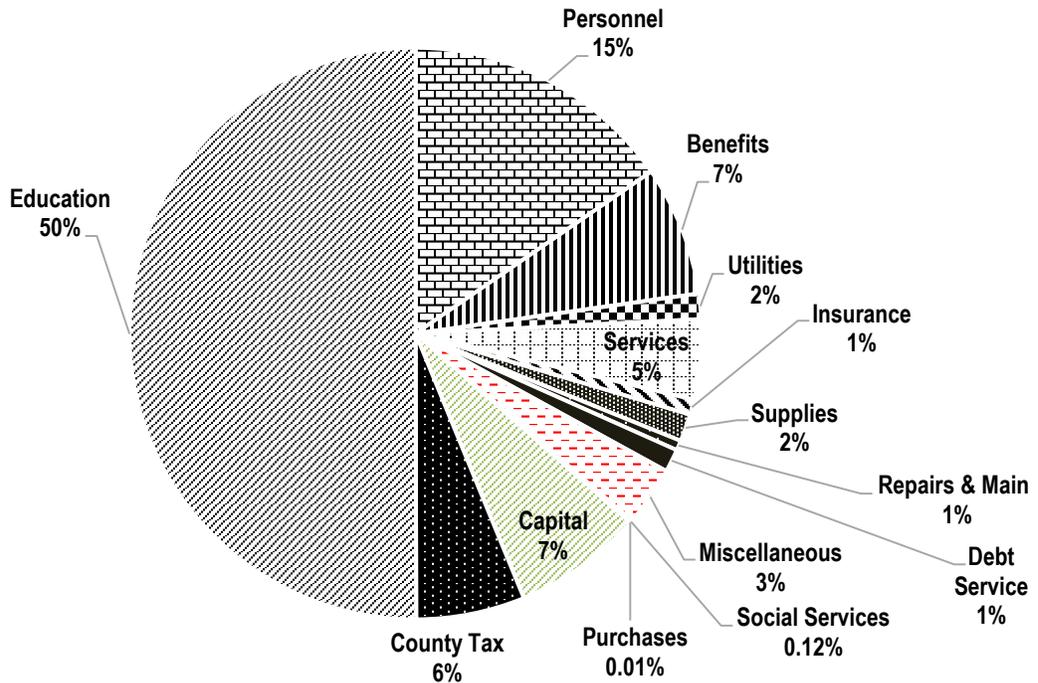

**Debt Service Schedule
General Fund**

	Principal	Interest	Total Debt Service
2017	230,865.68	24,951.36	255,817.04
2018	234,958.51	18,880.51	253,839.02
2019	168,331.09	37,349.69	205,680.79
2020	170,294.38	34,304.66	204,599.04

FISCAL YEAR 2018 BUDGET

FISCAL YEAR 2018 MUNICIPAL OPERATIONS

Personnel: Salaries include any contractual increases for longevity or cost of living adjustment. Within the personnel contingency line there is an additional \$20,000 budgeted in order to fund the payment of accrued vacation and sick time to employees who retire. This amount is the same funding level as in fiscal years 2017, 2016, and 2015. We are fortunate to have employees with long service records; however, the Town needs to prepare for the costs of accrued time as the workforce gets closer to retirement. Contingency also includes \$10,000 for salary modifications that may be needed throughout the year to account for responsibility and market adjustments.

Benefits: The Town instituted substantive changes in its health insurance plan by shifting from a point-of-service plan, to a plan that includes a health reimbursement account and by increasing the employee's share of the premium cost. By establishing this new plan, the Town has been able to greatly reduce the projected increases in benefits by stabilizing these costs. With that said, health insurance costs continue to increase across the nation as insurance companies no longer have a lifetime max or can eliminate candidates because of preexisting conditions. We have traditionally projected a 10% increase, but have projected a 15% increase in January of 2018; however, we hope the increase will be less. Once again, this year, the trustees for the Maine State Retirement System voted to increase the required employee contribution for retirement plans. The employer cost share will increase by .1% for administrative staff and by 1.5% for police officers.

Utilities: The slight increase is due to higher electrical costs and projected increases in gas and oil from fiscal year 2017. We currently are not locked into an oil contract and are projecting future gas and diesel prices.

Services: This cost center is showing an increase of \$172,231, which constitutes the largest increase in the municipal operations. The largest two increases in services are \$100,000 in Legal and a \$45,000 increase in Communications.

The Legal increase is due to the Goose Rocks Beach litigation. No funds were requested in fiscal year 2017, as the Town was awaiting a court date on the title pleadings. The trial dates on the title took place at the end of November 2016. The requested funds in fiscal year 2018 would prepare the Town for a defense in appeals court and for the public prescriptive easement case if necessary.

The increase in the Communication's maintenance account will allow for an expanded service contract from York Police Department. Currently, York PD is the Public Safety Answering Point (PSAP) for our 911 calls. Our local communications center then dispatches the calls once they are transferred to us. In calendar year 2017, the State of Maine is implementing new software (from Priority Dispatch) for emergency medical dispatch (EMD), emergency fire dispatch (EFD), and in the near future emergency police dispatch (EPD). In order to meet all new regulations, the Town would need to purchase the software, equipment, and training. The cost for these upgrades is approximately \$200,000. The other issue is that we only have one dispatcher on duty at a time. The new protocols require the dispatcher to stay on the line with the caller and give resources and support through a set of screen questions and responses. At the same time, the dispatcher needs to be on the radio with responding personnel and departments. Rather than invest in new upgrades as well as the addition of more personnel, we are proposing a contract with York PD. York will provide an enhanced level of service, handling the EMD, EFD, and eventually the EPD protocols. Kennebunkport communications will continue to dispatch to local personnel and coordinate the Police, Fire, Public Works, and KEMS services.

Insurance: These line items are showing an increase of just over 16.01%. In January of 2017, the Town experienced a large increase in its worker's compensation modification rate. Although worker's compensation insurance is mostly tied to payroll and the rates for each job classification, the final premium is then multiplied by your modification rate. Last year, the Town had a .81 modification rate. This produced almost a 20% discount in our premiums. In 2017, our modification rate increased to 1.2, or almost a 40% increase from 2016 rates. The modification rate is based upon your last three years of claim experience. Unfortunately, we had some cases that resulted in lost time and medical expenses. Our Safety Committee is working on an accident investigation form for our departments and will be inspecting departments throughout the year. Our goal is to improve this rating over time; however, it will take another two years for some of the loss cases to be removed from our experience calculation.

Supplies/Equipment: The cost center is showing a decrease of 4.5% as we have decreased expenditures across most departments wherever possible to offset some other price increases.

Repairs and Maintenance: There is an increase of 5% in this category, as the Public Works department repair line was increased by \$5,000. Our new mechanic has done a tremendous job servicing machinery from all departments. The department has also extended the life of much of its equipment. A decrease in capital expenditures; however, requires an increase in the repair and maintenance line.

Debt Service: This line item is showing a slight decrease as interest charges decrease over time. Added to debt service in fiscal year 2018 is the first payments for the recreation building project which will be voted on as part of the budget process.

Miscellaneous: The line item shows an increase of slightly over \$40,000 in fiscal year 2018. The largest portion of the increase is a request in contingency for \$30,000 to contract for expert assistance with the new FEMA flood maps. The new flood maps will be released in 2017, and preliminary maps show large impacts to properties along the Kennebunk River and in Goose Rocks Beach. These changes could dramatically increase flood insurance rates for many property owners. Should the Town wish to take the lead in defense of these properties, we have estimated a budget of \$30,000 based upon our historical knowledge.

Other increases in Miscellaneous include a request by the Conservation Commission for \$3,000 in matching grant funds for a tri-town study of the Kennebunk River water quality. We are also seeing an increase in solid waste costs and the Graves Library is requesting a \$6,000 increase in their annual funding.

Social Services: These accounts show a slight decrease for the fiscal year 2018 budget.

Purchases: These accounts remain flat for the fiscal year 2018 budget.

Capital Outlay: There is a very slight increase of .12% budgeted for fiscal year 2018. The capital budget continues the road restoration work from past years and keeps us on track for our 10-year road plan. The other focus in the capital budget is to construct a new Parks and Recreation building replacing the modular unit which has been used for 30 years. The plan includes using \$250,000 in operational reserve funding and bonding \$450,000 to complete the project. The Pier reserve fund has \$150,000 in requested funds to start saving for the needed work at Cape Porpoise Pier in the near future. The Fire Apparatus reserve fund will also be maintained at the \$130,000 level, while we complete the reserve funding to replace the brush trucks. I have also included \$18,000 and \$23,000 for a codification project and workforce housing study respectively. The codification project would review all ordinances ever adopted by the Town and update them to meet current legal codes and rid our local laws of any conflicts. The workforce housing project would enable us to partner with a consultant to gather the data and understanding necessary to create an implementation plan to ensure the continued livability in Kennebunkport by families and future year-round residents.

CAPITAL COSTS ANALYSIS

The Town Manager's budget submittal includes a multi-year capital improvement program covering from fiscal years 2018 to 2022. The greatest need looking forward is in road improvements, Public Works Department vehicle replacement, Fire Department apparatus replacement, and building improvements across several departments. The Capital account has increased by \$1,750 or .12%.

Below is the analysis of the fiscal year 2018 capital budget requests by department.

Administration: \$53,000

- Historic Preservation: \$5,000 allocation for ongoing preservation of historical documents at town hall.
- Building Improvements: \$12,000 allocation for window and door replacements at town hall.
- Special Projects: \$41,00 request.
 - \$18,000 is budgeted for the codification project. A legal consultant reviews all ordinances ever adopted by the Town to ensure that we have an accurate representation of local laws on the books. These ordinances are then compared to state and federal law for compliance. Finally, in order to follow and enforce local ordinances, people must be able to efficiently access and reference them. Codification is the way municipalities make it easy for people to find and read the laws they are expected to follow. Codification is the process of organizing and recording all permanent ordinances adopted by the governing body into a code book in which the laws are arranged by subject matter.
 - \$23,000 is budgeted for a workforce housing study. In 2016, the Town was fortunate to hold a charrette with the Seacoast Workforce Housing Coalition to examine the need for median income housing. The current median home price is about \$500,000. The current income level would allow a family to purchase a \$275,000 home. The trend toward seasonal rentals and residents is impacting the Town's ability to function on a year-round basis, attract a local workforce, and maintain a local school population. A study would gather data on the needs for housing in our community as well as define desired outcomes for future implementation, while maintaining the quality of life and culture of Kennebunkport.

Police: \$29,500

- Vehicles request of \$29,500 to replace the 2011 Ford Crown Victoria with over 150,0000 miles.

Fire: \$209,500

- Equipment request of \$22,000 to purchase replacement of self-contained breathing apparatus (SCBA) bottles (\$12,000) and continue the final year of funding to rebuild of the Jaws of Life (\$10,000). The Fire Department has over 140 air bottles that must be replaced no later than 15 years from date of purchase. The Department has developed a replacement schedule through 2021 that will allow for a consistent budget allocation. The rebuild of the Jaws of Life will take place over a three-year period.
- Vehicles/Reserve request of \$30,000 over the next year will allow us to replace both brush trucks (1974 and 1980 vintage) with a skid mount tank and pump on a one-ton truck.
- Radio Reserve request of \$10,500 to replace portable radios, spare batteries, and microphones as needed.
- Fire Apparatus Reserve request of \$130,000 to replace Ladder 4 or Engine 33. The Department has completed a long-term replacement schedule for all fire apparatus through 2034. This plan projects the use of funding from the Kittredge and Seavey trust funds as well as town appropriations.
- Firefighter PPE request of \$17,000 to purchase replacement personnel protective equipment on a rotation basis for firefighters. The Department must perform annual testing of 100 personnel who may wear airtight masks in performance of duties. In addition, the Department replaces at least 9 sets of turnout gear as either replacements to existing responders or first sets for new responders. This allocation of \$17,000 allows the Department to acquire the equipment needed to perform this test in house.

Highway: \$140,000

- Vehicles request of \$140,000 to replace 2009 John Deere backhoe. The current backhoe will be sold and is anticipated to generate \$20,000 in funds to offset this cost. The sale funds are budgeted in the revenue.

Road and Sidewalk Improvements: \$591,350. Requested funding is a \$126,250 decrease from fiscal year 2017. The request is offset by \$160,925 in State revenue as the planned projects include state aid roads.

- Road Improvement request of \$505,300 to rehabilitate Josiah Curtis Lane, Mount Kineo Road, New Biddeford Road, Oak Street, West Street, Lock Street, Windemere Drive, Mills Road, Atlantic Avenue, Goose Rocks Road, Ocean Avenue, and Mills Road. See attached detail sheet for more information.
- Sidewalk Improvement request of \$86,050 for the continued sidewalk/pedestrian/bicycle improvements to Main Street, South Main Street, and Mills Road.

Recreation and Park: \$250,000

- Recreation and Park Improvements reserve fund request of \$250,000 for construction of a Parks and Recreation building that will house a concession stand, public bathrooms, offices, storage, and program space. The entire cost is \$700,000. \$250,000 of it will come from the reserve fund and \$450,000 will come from a bond.

Piers: \$150,000

- The Pier Reserve fund has \$150,000 in requested funds to start saving for the needed work at Cape Porpoise Pier in the near future.

**INDEPENDENT AUDITOR'S REPORT ON
SUMMARY FINANCIAL STATEMENTS**

The accompanying summary financial statements of the Town of Kennebunkport, Maine as of and for the year ended June 30, 2016, as listed in the table of contents, are derived from the audited basic financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Kennebunkport, Maine as of and for the year ended June 30, 2016 and the related notes, which collectively comprise the Town's basic financial statements. We expressed unmodified audit opinions on those audited financial statements in our report dated November 28, 2016.

The summary financial statements do not contain all the disclosures required by accounting principles generally accepted in the United States of America. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of the Town of Kennebunkport, Maine.

Management's Responsibility for the Summary Financial Statements

Management is responsible for the preparation of the summary financial statements.

Auditor's Responsibility

Our responsibility is to express an opinion about whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with auditing standards generally accepted in the United States of America. The procedures consisted principally of comparing the summary financial statements with the related information in the audited financial statements from which the summary financial statements have been derived.

Opinion

In our opinion, the summary financial statements of the Town of Kennebunkport, Maine as of and for the year ended June 30, 2016 referred to above are consistent, in all material respects, with the audited financial statements from which they have been derived.

BOARD OF SELECTMEN REPORT

L-R: Stuart E. Barwise, Patrick A. Briggs, Sheila Matthews-Bull, Allen A. Daggett, Edward W. Hutchins

Major building programs in our town have been completed that will enhance operations, safety, and support of residents. As part of the RSU-21 building renovation program, the Consolidated School has received significant upgrades that improve the heating system and adds two classrooms and bathroom showers. Extensive storage space under the stage in the gym will allow us to keep necessary supplies for use in an emergency situation. These features allow the Town to designate it as an emergency shelter. The school was officially rededicated in October.

The additions to the police station providing several system upgrades, additional lockers and showers, and a large room for multi-purpose use were completed. The wind turbine located in the police parking lot reached the end of its useful life and was removed to make space in the front of the new addition. In the spring of 2017, the parking lot will be repaved completing the project.

The replacement of the Mat Lanigan Bridge began late in the year with the appointment of local residents and business owners to an advisory committee in partnership with Maine DOT. The committee assisted the DOT in development of the bridge construction schedule and design. Work on the project began in earnest after Prelude and is expected to be completed by the end of May 2017.

The second Habitat for Humanity house to be built in Kennebunkport was completed for a disabled Army veteran and dedicated on August 27, 2016. Waylon Holbrook and many other volunteers from surrounding communities helped build the home located on Beachwood Avenue. He and his family moved into the home in time for their children to begin the school year in RSU-21.

Additional town-wide capital projects begun in 2016 include:

- Widening of pedestrian/biking paths along North Street and Ocean Avenue.
- Working with KKW, a water expansion project provided new service to an area from Ocean Avenue along Windemere Place and Seaview Road, thus

completing a link to the existing supply line at the entrance to the Bush compound.

- Awarding a design and engineering study for rebuilding Government Wharf in fall 2017.
- Planning and designing of Mills Road improvements to start in early 2017.
- Undertaking the design and engineering study for the wastewater pump station replacements at Chick's Creek and Green Street with construction to begin in fall 2017.
- Purchasing two new playground complexes to be installed at Parson's Field and Rotary Park in the spring of 2017.
- Establishing a trailhead at Rotary Park to connect with the existing Kennebunkport Conservation Trust hiking trails.

The litigation process to resolve the Goose Rocks Beach lawsuit is entering into what we expect to be the final stages with a decision expected in late spring 2017. The Board continues to work with abutters, our attorney, and those aiming to preserve Goose Rocks Beach for public use for future generations. As a result, late in 2016, three of the plaintiffs have dropped out of the lawsuit and signed the Beach Use Agreement ending their opposition to the Town's lawsuit.

Under the leadership of Town Manager Laurie Smith, we undertook a sewer rate study to ensure that sewer rates were distributed between commercial and residential properties fairly and equitably. It is important to note that the study determined that the current rate structure was the most equitable.

The Dock Square parking lot was automated starting this year, but we experienced a small number of scofflaws ignoring the parking tickets that were issued. We entered into an agreement with a collection agency to seek payment of the tickets and were successful in recovering over \$5,000.

In late 2015, the Town established a relationship with HM Payson to manage our trust fund accounts as specified in the Town's Investment Policy guidelines. The results show that our funds for 2016 in a recovering economy were 2.18%, twice as much as we earned in the past.

Looking ahead, the Town has established five-year projections of the capital needs by each department to guide us. This will enable us to budget in an orderly fashion. Fortunately, we enjoy a very low ratio of long-term debt obligation, less than 2% of valuation. This gives us wide flexibility to meet our needs. Coupled with a low mill rate of 8.28, we are confident of being successful going forward.

Susan.Deschambault@legislature.maine.gov

Dear Friends and Residents of Kennebunkport,

Thank you for the opportunity to serve again as your State Senator. I am honored and humbled by the responsibility of representing you, your families and our area in Augusta. I promise to work hard to do just that.

This legislative session is shaping up to be a very busy one. I have been appointed to the Legislature's State and Local Government Committee. On the committee, I will uphold the values of good government at all levels — state, county and local. My focus will be to ensure our communities have the resources they need to serve their residents.

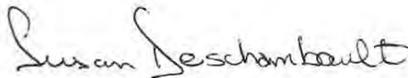

Over the last few months, I heard from many constituents who are concerned about Maine's young people leaving our state because of a lack of opportunities. Legislation aimed at stemming that loss will be a priority this year. I've introduced legislation to help municipalities invest in their downtowns, city centers, and riverfronts to help offset the burden of rising property taxes. I will also support legislation aimed at assisting our elderly population facing financial and health concerns.

In that vein, if you have other concerns or ideas for legislation, I am always available to listen. Please feel free to call or email me anytime. This is going to be a contentious session and there will be times when well intentioned people don't agree, but I want you to know that I always welcome fair and civil discussion.

I can be reached on my cell at (207) 284-3570 or at the State House at (207) 287-1515. Please feel free to email me anytime at Susan.Deschambault@legislature.maine.gov. I also encourage you to sign up to my mailing list to receive my regular legislative updates. You can do so at www.mainesenate.org.

I look forward to working with you in 2017!

Sincerely,

Susan Deschambault
State Senator

January 2017

Dear Friends and Neighbors,

First, I would like to thank the residents of Kennebunkport for electing me as your State Representative. I take this responsibility very seriously and look forward to the 128th Legislature to continue the progress toward making Maine an affordable and hospitable place to live, work and enjoy!

I have been asked to serve on the Joint Standing Committee of Appropriations and Financial Affairs for the 128th Legislature. It is an honor and a privilege to serve as your representative. Maine citizens deserve a government that represents the needs of all citizens, and I intend to honor that duty. Some of my priorities this First Session are to continue to move Maine citizens from poverty to prosperity. I will continue to promote fiscal responsibility with common sense tax reform, as this serves *all* Mainers. I have also heard the voices of all Mainers that protecting the public and improving Maine schools are your priorities and that also makes them mine.

I was elected to the Maine Legislature on the promise to represent you, the people of District 9. I will be seeking your input regularly and want to hear from you with your comments and concerns. Please call me anytime at **287-1440** or email Stedman.Seavey@Legislature.Maine.gov to keep me updated on those concerns. If you would like to be added to my email update list, you can do so by emailing me directly with your request.

Thank you again, for giving me the honor of serving you in Augusta!

Sincerely,

A handwritten signature in cursive script that reads 'H. Stedman Seavey'.

United States Senate
WASHINGTON, DC 20510-1904

Dear Friends:

It is an honor to represent Maine in the United States Senate. I am grateful for the trust the people of our State have placed in me and welcome this opportunity to share some key accomplishments.

Growing our economy by encouraging job creation remains a top priority. The tax relief bill enacted during this last Congress contains provisions I authored to provide small businesses with the certainty that they need to invest, grow, and, most important, hire new workers. The 2017 National Defense Authorization Act includes a provision the Maine delegation worked together to champion requiring that military recruits be provided with athletic footwear made in America, as is required for other equipment and uniform items whenever possible. This is a great victory for our troops and for the 900 skilled workers at New Balance factories here in Maine.

Maine's contributions to our national security stretch from Kittery to Limestone. As a senior member of the Appropriations Committee, I successfully advocated for critical funding for projects at the Portsmouth Naval Shipyard and \$1 billion towards the construction of an additional ship that will likely be built at Bath Iron Works. This funding will strengthen the Navy and our national security, and the additional destroyer will help meet the Navy's goal of a 355-ship fleet.

Maine's growing population of older individuals creates many challenges. That's why, as Chairman of the Senate Aging Committee, my top three priorities are fighting fraud and financial abuse directed at our nation's seniors, increasing investments in biomedical research, and improving retirement security.

The Aging Committee's toll-free hotline (1-855-303-9470) makes it easier for senior citizens to report suspected fraud and receive assistance. Last May, a call to the hotline helped lead to the arrest of a national crime ring targeting seniors, and in June I worked to secure the humanitarian release of a Maine senior who had been imprisoned in Spain after being victimized by an international drug smuggling scam.

The Aging Committee also released an extensive report detailing the findings of our bipartisan investigation into the abrupt and dramatic price increases for prescription drugs whose patents expired long ago.

I advocated strongly for the \$2 billion increase in funding for the National Institutes of Health to advance research on such diseases as diabetes and Alzheimer's. I also championed and authored portions of the 21st Century Cures Act that will further support biomedical innovation and make significant reforms to our mental health system.

The Senate also took steps in the past year to combat the nation's heroin and opioid epidemic by passing the Comprehensive Addiction and Recovery Act (CARA), which I was proud to cosponsor. CARA is a monumental step forward in our effort to address the devastating addiction crisis affecting countless families and communities across the country and right here in Maine.

A Maine value that always guides me is our unsurpassed work ethic. In December 2016, I cast my 6,236th consecutive vote, continuing my record of never missing a roll-call vote since my Senate service began in 1997.

I appreciate the opportunity to serve Kennebunkport and Maine in the United States Senate. If ever I can be of assistance to you, please contact my York County state office at 207-283-1101 or visit my website at www.collins.senate.gov. May 2017 be a good year for you, your family, your community, and our state.

Sincerely,

Susan M. Collins

Dear Friends of Kennebunkport,

Since being sworn into the Senate in 2013, I have made it my mission to address at the federal level the most important issues facing our great state. Working closely with my colleagues in the Maine Congressional Delegation, we've been able to successfully secure a number of legislative victories that support our state's economy, our rich traditions, and the hardworking people I am proud to represent.

In an increasingly polarized Congress, my goal as an Independent is to put partisanship aside, build consensus and further common-sense solutions to address the needs of the American people. To this end, I have co-founded the Former Governors Caucus, a group of former state executives who are frustrated with legislative gridlock and eager to find bipartisan solutions. And as always, I aim to bridge the partisan divide by hosting barbeque dinners in Washington with colleagues ranging from Ted Cruz to Elizabeth Warren. If you know a person's children, then you see them as a mother or father and not a rival vote, and working to further personal dialogue and build relationships can lay the foundation for successful legislation.

One of the accomplishments of which I am most proud is the legislative victory that protects our college students and their families from an expensive hike in student loan interest rates. In 2013, as students faced a significant spike in interest rates that would have taken thousands of dollars out of their pockets, I brought together colleagues from across the political spectrum to broker compromise legislation called the Bipartisan Student Loan Certainty Act. Thanks to this bill, students will save \$50 billion over the next 10 years by lowering their interest rates, which means that a student in Maine will now save between \$3,000 and \$6,000 over the life of their loan.

Being an Independent in the Senate has allowed me to make calls and vote on policies that are best for Maine, but it has also made it possible to play key roles in finding simple solutions and legislative fixes that make good commonsense to both parties. Of course, much of what we do in the Senate doesn't happen on the Senate floor, or even in committee. Instead, it involves working across all levels of government to ensure the State of Maine receives attention and support from the federal government.

Take, for example, the opioid and heroin epidemic devastating communities across our state. While Congress has passed legislative solutions aimed at expanding access to medical treatment, I've also pressed for other changes that can be accomplished more quickly and make a more immediate difference in Maine. For example, I successfully urged the U.S. Department of Health and Human Services to increase the number of patients to whom a doctor can provide medication-assisted treatment, and in 2015 brought the Director of the Office of National Drug Control Policy to Brewer to meet directly with Mainers and hear their stories. I've also engaged law enforcement – including the Drug Enforcement Agency – to crack down on the production of opioids and work to limit their diversion. Together, Senator Collins and I helped pass the Northern Border Security Review Act to combat drug and human trafficking along our border with Canada.

While the opioid epidemic is certainly our biggest public health crisis, job loss in Maine is still our number one economic problem and that's why we need to focus on bringing good paying jobs back to Maine and protecting the ones we still have. As a member of the Armed Services Committee, I teamed up with Senator Collins and Representative Poliquin to successfully secure a provision in the defense bill that can help domestic shoe manufacturers like New Balance. The three of us also worked together with the Department of Commerce to establish an Economic Development Assessment Team, known as an EDAT, to assist Maine's forest industry in the wake of several mill closures. We have an incredible spirit of innovation and ingenuity in Maine and I believe finding ways to invest in that spirit will reignite Maine's forest products sector and our economy. Part of our economic path forward must also include expanding access to high-speed broadband, which can help connect our businesses and communities to information and economic opportunities.

As a member of the Senate Armed Services and Intelligence Committees, I work to keep Maine and our nation safe. Part of that important work means continuing to work for funding for the construction of Navy ships that will be used to protect American interests across the globe. We all know that "Bath Built is Best Built," which is why I've fought to authorize funding for Navy ships built at BIW. The best way to preserve peace is by deterring war through unassailable strength, and to do that we must support our shipbuilders and our brave service members and invest in our military. I strive to meet this solemn responsibility every day as a member of these committees, which is why I hardly ever miss a hearing and take great care in overseeing the agencies sworn to keep us safe. Armed Services Chairman John McCain called me "one of the most serious and hard-working members" of the Committee, and that's a humbling compliment from a true American hero.

As always, please call or write me with thoughts or concerns with matters currently before Congress, or if you need assistance navigating a federal agency. As a public servant, it is critical to me to listen and learn from you, which is why staying connected with people from all over our beautiful state remains a top priority for my work in the Senate. Please call my toll-free line at 1-800-432-1599 or one of my offices: Augusta: (207)622-8292, Bangor: (207)945-8000, Presque Isle (207)764-5124, Scarborough (207)883-1588, or Washington, D.C. (202)224-5344. You can also write me on our website at www.king.senate.gov/contact.

It is an honor and a privilege serving the people of Maine in the Senate, and I look forward to working with you in our search for a more perfect Union.

Sincerely,

Angus S. King, Jr.

CONGRESS OF THE UNITED STATES
1ST DISTRICT, MAINE

Dear Friend,

I hope this letter finds you well. It's a privilege to share an update on my work to represent you and your family in Washington and in Maine.

As always, the interests of my constituents are what guide my work. There are many things I could talk about in that regard. But I want to focus here on one issue of particular importance—economic development. Having good-paying jobs allows future generations to make this wonderful state their home. With that goal in mind, I'm working to address Maine's economic challenges and capitalize on its opportunities.

One such opportunity is agriculture, where Maine is bucking national trends. The average age of our farmers is actually going down while acreage in cultivation is going up. Consumer demand for local food is driving that growth. I've been successful in reforming federal policies to help farmers and processors meet that demand. My work will continue this year as Congress reauthorizes the Farm Bill.

I'm also working to support jobs in our coastal communities. Last year, I helped block Sweden's proposed ban on the export of Maine lobsters to the European Union. I also introduced legislation to lift unnecessary regulations on seafood exporters and invest in working waterfront infrastructure.

On the House Appropriations Committee, I'm defending federal programs that support jobs throughout Maine. These programs invest in worthy projects that are beyond the reach of private, municipal, or state resources. In our state, they provide loans to small businesses, clean polluted sites for redevelopment, find new marketable uses for Maine's natural resources, build broadband infrastructure, and much more.

Aside from economic development, advocating for Maine veterans is one of my highest priorities. With Congress' current agenda, I'm also fighting to defend Medicare and Social Security, protect clean air and water, and ensure that our communities have the resources to address hunger, homelessness and lack of health care access.

Just as important as my policy work in Washington is what my office does to help individuals in Maine. Every year, my staff helps hundreds of constituents who have issues with federal agencies or programs. Please call my Portland office at (207) 774-5019 for assistance. It's an honor to serve you.

Take care,

Chellie Pingree

Paul R. LePage
GOVERNOR

Dear Citizens of Kennebunkport:

Maine has a long tradition of civil participation in both state and local government, and I thank you for being informed and involved citizens.

My vision for Maine is prosperity, not poverty. For this reason, one of my top priorities continues to be the reduction and eventual elimination of the income tax. Raising the minimum wage is not the path out of poverty; I want Mainers to earn a career wage. Reducing the income tax is the biggest and most immediate pay raise for all hard-working Mainers.

Not only does an income tax cut put more money back in your pockets, but it will also attract businesses that can offer good-paying careers to keep our young people here. It shows the nation that we are serious about wanting people and businesses to come—and stay—in Maine.

Unfortunately, voters approved a referendum question to raise the income tax to 10.15% on successful Maine households and small businesses. Enacting the second highest income tax rate in the country shows the nation we are eager to punish people for being successful. It will drive them out of our state and make it even more difficult to attract much-needed doctors, dentists, scientists, engineers and other professionals to Maine. They can live in neighboring New Hampshire, which takes no income tax from their paychecks. Even worse, there is no guarantee the extra revenue from this tax will go to fund education, as proponents promised.

As successful people leave Maine, state and municipal government will lose the significant amount they pay in property, sales and incomes taxes. This will put even more upward pressure on local property taxes. Municipalities will have to get more creative to provide local services without increasing property taxes. Reforming the tree growth program, collecting property taxes on land in conservation or preservation programs, charging a payment in lieu of taxes on state land that is taken off the property tax rolls and having non-profit organizations pay a two-percent tax on their net revenues are all ways for municipalities to increase revenues.

Such bold measures would take strong leadership and commitment from local officials and residents. If ever I can be of assistance to you or if you have any questions or suggestions, I encourage you to contact my office by calling 287-3531 or by visiting our website at www.maine.gov/governor.

Sincerely,

Paul R. LePage
Governor

TOWN MANAGER REPORT

Town Manager Laurie A. Smith

As we meet the challenges ahead, we continue to strive to improve operations through the development of our staff, the improvement of our infrastructure, and the identification of goals that will move us forward.

The Police Department project design that began in 2015 was completed in 2016 and received its occupancy permit in early November. Wright Ryan Construction was hired to oversee the addition of a lobby, interview room, public restrooms, and a 950 sq. ft. meeting space. The project also included internal renovations that expanded the men's locker room and created a woman's locker room. The locker room makeover now allows for officers to store their gear and uniforms in a clean environment that accommodates their modern use of equipment and technology. The meeting room space has already been put to good use by police staff, town officials, and community groups.

As part of the Police Department project, the Town reviewed the efficiency and effectiveness of the wind turbine that was placed on the property several years prior. The wind turbine experienced some mechanical issues as well as faulty software that made readings unreliable. The project also impacted an abutting neighbor in a manner that was not anticipated when the project was approved. Once the Selectmen reviewed the original goals of the project and its performance, it was decided that the wind turbine would be better suited in another location. The device was dismantled at no cost and donated back to the company who had originally installed it to be used at another location.

As one project came to a close, another began. The Town contracted with Baker Design Consultants to begin overhaul on the design of Government Wharf. A couple of years ago, the Town had hired Kleinschmidt Engineers for the design work; however, the costs came in over \$1 million. The goal with Baker Design Consultants was to develop a project that meets the needs of the fishermen and public, our operational and maintenance goals, and is fiscally responsible. Mike Claus, Ray Billings, and the Government Wharf Committee met throughout 2016 refining the design and budget estimates. The plan is to bid the project in early 2017 for construction in either the spring or fall of 2017, outside the fishing season.

As the Town reviewed plans for Government Wharf, the fishermen at Government Wharf requested that the Town also assume responsibility for the financial accounting of pier users. This includes the collection of annual dues as well as the expenditure of funds for electricity and maintenance. Based upon a recommendation from the Government Wharf Committee, the Board of Selectmen voted to assume accounting and budgeting responsibility for the operations. Pier dues were established and billed accordingly, and all pier users were paid in full by the end of the calendar year.

Seeking additional financial information on sewer rates, the Selectmen approved funding for a sewer rate study which was completed with the assistance of Underwood Engineering. The desired goals of the study were to analyze the different methods for billing and rate structure to ensure that sewer rates were distributed between commercial and residential properties fairly and equitably. The study, completed in June of 2016, examined three rate structures—the flat rate (current system), sewer unit and consumption, and meter size and consumption. The study determined that the current flat rate system was the most equitable, and the Selectmen voted to maintain the current rate structure.

Investment in roads and sidewalks continues to be a goal of the Town. Public Works continued with the implementation of the Comprehensive Plan's goals for widened pedestrian and biking paths through Town. The Ocean Avenue project was completed in 2016, while the construction along North Street began in 2016. The Mills Road widening project will be difficult due to the narrowness of the right of way throughout the populated area in Cape Porpoise. In the fall, Public Works Director Mike Claus held a public session in Cape Porpoise to discuss the project and lay out his proposed plan. With new input from the neighbors, the project should begin in spring of 2017.

Infrastructure improvements included the long-awaited replacement of the Mat Lanigan Bridge. The Selectmen appointed Kennebunkport representatives to the Mat Lanigan Bridge Advisory Committee to work with the Department of Transportation on the bridge reconstruction project. The Committee met throughout the year to provide feedback on construction timeline, design, and community input. The Committee's feedback enabled the construction timeline to be minimized to less than

a year, allowed for the 45-day closure of the bridge, and created a design that should complement the surroundings. The State awarded the bid to T-Buck Construction, and the project that began in the fall should be completed in the spring of 2017. Many thanks to the Committee's work as the replacement of the bridge between Dock Square and Lower Village has been one of the biggest challenges facing the two communities in decades.

Town operations have changed just as the rest of the world has, and the investment in Town staff is imperative to the continued success of our team. During the first two months of 2016, staff used the quieter time of year to attend training in time management and human relations. The Art of Human Relations was attended by all members of our multi-department team. It was an employee development and team building program in which staff at all levels understand how much influence they have on others (citizens, coworkers, community members, family, and friends) through the way they communicate.

I spent some time in investing in our future workforce as well. Maine is the oldest state in the nation, and the challenges of attracting a younger work force as the baby boomers retire is daunting. This is true whether you are a private or public sector employer. In the interest of educating our youth about the opportunities working in local government, Kennebunkport took on a Kennebunk High School intern during the last two weeks in May. Travon Bradford was selected for the position and had the opportunity to visit and learn about each department in our Town. Although Travon told us, as he headed off to Colby College, that he really wants to work in private sector finance, he was amazed by everything that local government tackles. We counted the internship a success and look forward to a new intern this May.

In June, we said goodbye to our Town Clerk, April Dufoe, as she retired after 16 years of service to the residents of Kennebunkport. The Town Clerk's work touches many people's lives, including the three biggest events in most people's time—birth, marriage, and death. The Clerk is the caretaker of these important records as well as actions by the Town's legislative body, and ensuring that one of the foundations of our country—the election process—remains a hallmark of New England democracy. She took on all of these duties and many more with the passion and vigor that is expected of Town Clerks across the state. Her meticulous record keeping and organized work product has left us in good hands as we move forward.

Luckily, our new Town Clerk, Tracey O'Roak, was ready to take the helm, and we haven't missed a beat. She came to Kennebunkport from the City of South Portland where she worked in the Finance Department. She also came with Town Clerk experience that she gained in the Town of Scarborough. As a good percentage of our employees are in the midst of retirement planning, succession planning is key to keeping the Town moving forward.

Other new hires in 2016 included Brice Bond, Matthew Philbrick, Scott Slawson, and Greg Reid. Brice came from the private sector and is educated in environmental

science. He has already attended a variety of wastewater licensure training and has been a great addition to the team. Matt Philbrick has ties to Kennebunkport and joined the Public Works Department after gaining experience in Kennebunk. He is proving himself each day, and we are thankful Kennebunk sent him our way. Scott Slawson joined the Police Department after experience with the York Police Department and service with the Secret Service. He came to Kennebunkport fully Maine certified and was able to go right to work with minimal training. Many of you know Greg Reid from his private ventures in Kennebunkport and his service on the Planning Board. He joined the Planning and Codes Department in the fall serving in the role as the new part-time building inspector. He already knew many of the contractors in Town and his efforts were felt almost immediately.

Hiring new employees to carry on the work of the Town has been made difficult due to the cost of housing. One of the biggest challenges we have identified in recent history is the issue of maintaining a year-round population. Why is this an issue? It negatively impacts Kennebunkport in the ability to maintain an elementary school population, the need to attract a workforce for public agencies and local businesses, and the desire to fill vacancies in our volunteer public safety positions and board committee seats. The median household income in 2015 was approximately \$74,167, and the median home price was \$509,330. Using the industry standard that 30% of your monthly income is appropriate for housing costs quickly shows that the average resident can afford a home in the \$275,000 range. Kennebunkport reported in 2015 that 66.4% of households earned annual incomes below the level needed to afford the median home price in the Town. This indicates that for nearly 66.4% of residents, the available housing is unaffordable, which puts financial pressure on these households by requiring them to spend a higher percentage of their income on housing.

As part of our desire to involve the community in this discussion, the Growth Planning Committee applied to the Seacoast Housing Coalition for one of their two annual grants. Kennebunkport was fortunate to be awarded one of the charrettes for 2016 and began the planning process at the start of the new year. The event was held over the two-day period, on September 27 and 29, at the Nonantum Resort. The process included a site walk, community dialogue session, and design workshop, culminating in a design reveal on September 29. The charrette provided a process through which public and private stakeholders might become aware of the many possibilities for creating workforce housing. The next step will be to devise a comprehensive strategy for improving and creating new housing for young families.

Each year offers new challenges in local government; fortunately, we are blessed in Kennebunkport with devoted Selectmen, capable staff, and talented volunteers which allow us to overcome most obstacles. On behalf of all Town employees, we thank you for the opportunity to serve this wonderful community.

Laurie A. Smith, Town Manager

ASSESSING DEPARTMENT REPORT

The assessing department is responsible for documenting and listing all taxable property, real and personal, within the Town of Kennebunkport. We are committed to providing reliable information, including historical data on each property such as ownership and property characteristics. We encourage taxpayers to review their current tax bill and/or property record card for accuracy.

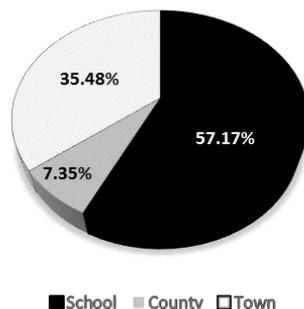

In the final week of 2016, we launched our new and improved online GIS map site, and are excited to have CAI Technologies host our site. We feel the new site is more “user friendly,” allowing for monthly ownership updates, access to Vision property cards, creation of abutter’s lists, and mailing labels.

We encourage residents to visit the new site, and take the GIS Overview Tour. To access the GIS go to: www.axisgis.com/kennebunkportme.

Becky Nolette, our in-house certified Maine assessor, continues to handle the day-to-day assessing responsibilities including property transfers, state reporting, exemption applications, and answering your assessing questions. She works alongside Donna Moore Hays, a certified Maine assessor, who continues to serve as the assessors agent to the Board of Selectmen.

The 2016 assessed valuation of the Town was \$1,912,262,450. The current mill rate is \$8.28 per thousand. The sum of \$15,833.533 was committed to the tax collector on July 28, 2016. We perform an annual “ratio study” for Maine Revenue Services, which compares the selling prices versus property assessments. Kennebunkport’s ratio for 2016 is 100%.

Property Tax Distribution 2016-2017

Ways to reduce your property tax

By April 1 of any given year:

Veterans and un-remarried veterans' widows may be eligible for a tax exemption if:

- Sixty-two years of age on or before April 1, (widows claim veteran's age).
- A property owner and primary resident of Kennebunkport.
- Honorably discharged, served during a recognized war period.

You may be eligible for a Homestead Exemptions if you:

- Are a legal resident of the State of Maine (have a voter registration, Maine drivers' license, excise tax paid to the Town of Kennebunkport, etc.).
- Declare Kennebunkport homestead as permanent place of residence (no summer homes, second homes, etc.).
- Have owned a homestead in Maine for the past 12 months.

Upcoming changes to the Homestead Exemption program.

- Starting April 1, 2017, the exemption will increase to a \$20,000 reduction in your total taxable assessment.

These forms and instructions are available online. Feel free to contact the Assessor's Office at 207-967-4243 extension 103, if we can be of further assistance.

In closing, we would like to thank the Town Manager, the office staff, the residents of the Town, and the Board of Assessors/Selectmen for their cooperation and support during the past year.

Becky Nolette, CMA
Assistant to the Assessors

Donna Moore Hays, CMA
Assessors Agent

CODE ENFORCEMENT OFFICE REPORT

Building activity has continued to increase in comparison to the slow years of 2008-2012. Development continues to increase from past years when the economy was slow. Services we have provided includes approximately 1,600 site visits, building inspections, and scheduled appointments. This does not include folks walking in with questions or phone calls.

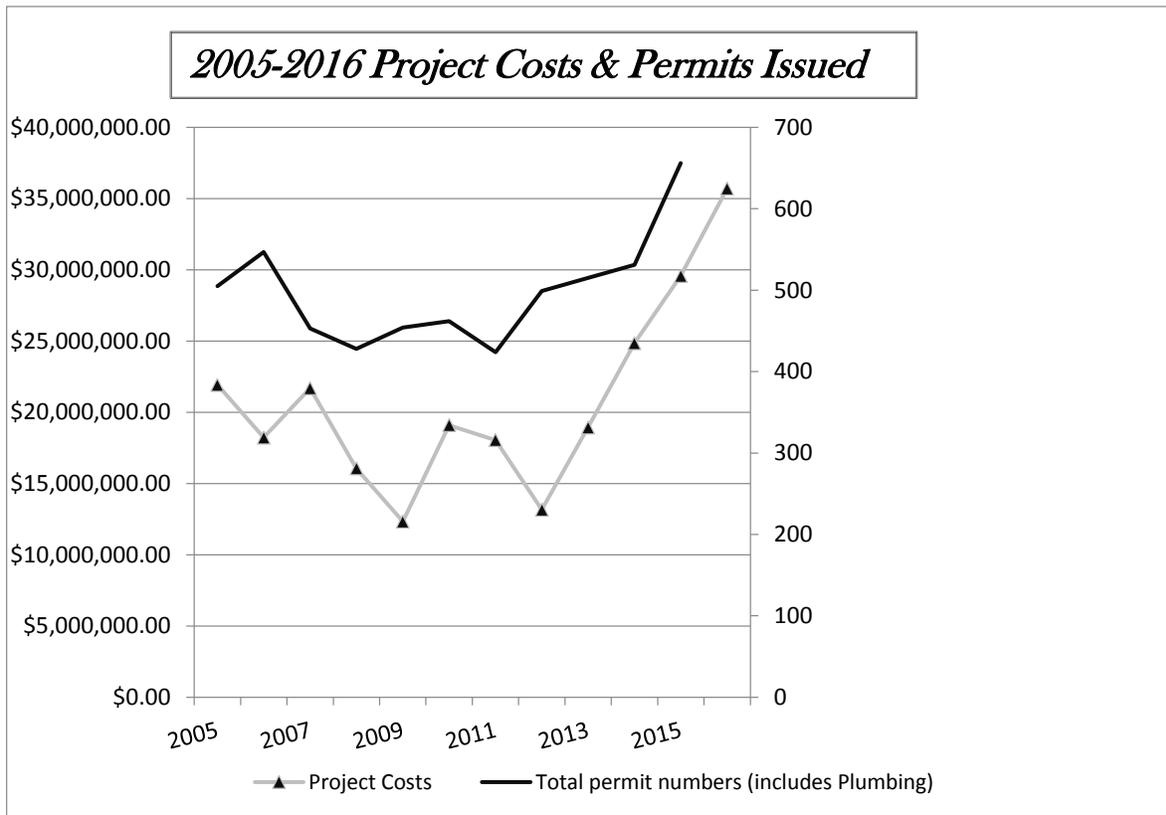

Our daily code enforcement activities include examining building plans, issuing permits, performing site inspections, meeting with property owners and their representatives on potential projects, responding to zoning complaints, and continued flood map reviews with property owners. Due to the increase in activity, we were able to add some additional staffing to keep up with the increased workload. Greg Reid has joined our team as an assistant code enforcement officer and works with us about 16 hours a week. He is a great addition, and we look forward to having him work with us.

Per amendments made to the Comprehensive Plan and Land Use Ordinance, growth permits for new homes have been allocated into three areas: growth, rural and transition. In each of these zones, we issued the following: growth 17; rural 7; transition 7.

Our new home permits were issued in the following zones, as compared to last year:

NEW HOME PERMITS		
Zoning District	2015	2016
Cape Arundel	2	3
Village Residential	3	9
Village Residential East	3	1
Goose Rocks	3	8
Cape Porpoise East	0	0
Cape Porpoise West	0	1
Cape Porpoise Square	0	0
Free Enterprises	4	4
Farm & Forest	2	5
River Front	0	0

Year	Project Cost/Value
2011	\$18,047,600.06
2012	\$13,162,047.00
2013	\$18,938,560.00
2014	\$24,851,433.00
2015	\$29,576,937.00
2016	\$35,709,639.00

<u>Permits for 2016</u>	# Issued
Residential new construction:	25
New Home Permits	9
Replacement Homes	
Residential Renovations/Additions	103
Growth Permits	31
Accessory Apartments	4
Driveways and Roads	3
Change of Use	0
Fill/Vegetation Removal	40
Shop Openings/Signs	3
Telecommunications Facilities	0

KENNEBUNKPORT EMERGENCY MANGEMENT REPORT

Kennebunkport Highway Department crews remove debris from Pier Road in Cape Porpoise following the Blizzard of 1978.

Having the responsibility to create a framework to build, sustain, and improve the community's ability to respond to and recover from threatened or actual natural disasters, acts of terrorism, or other man-made issues is an ongoing task. Since taking over in 2016, I have steadily improved my knowledge base in the multifaceted field of emergency management. I continue to attend trainings designed to improve my skills set as well as learn what other communities in the area have for resources.

Town Manager Laurie Smith brought in an expert in the field of emergency management and had town staff come together to learn important skills unique to their respective field which was then put to practical use in a table-top exercise. This training was important because it required town employees to work as a team to resolve an incident while maintaining important governmental functions. I thank the Town Manager for providing staff time for the training as well as the support to allow me to attend courses in the area focused on emergency management.

I have also tried to build on existing relationships with the York County Emergency Management group by attending local director's meetings on a regular basis. If disaster strikes, it is important to have those relationships developed so response to and recovery from a disaster can happen as smoothly as possible.

Deputy Director Dick Stedman has a vast knowledge base with years of experience in the field and continues to be a vital part of our local team.

The addition to the police department concluded at the end of 2016. The new space will be multi-use, but it's most important function will be to facilitate the management of critical incidences that occur with Kennebunkport.

As we approach spring, I have had the opportunity to be present during a couple of those rather large snowstorms we endured over the winter months. During these storms, it was easy to see that some of us still do not prepare ahead of time for potential issues. In today's world, it is rare to not have some notice of a storm's approach or the closing of a road or business. Many people find themselves in need of help for no reason other than not thinking ahead. Each of us has some type of need either because of a medical reason or a desire to safeguard loved ones. Because of these needs, each of us should take the time to prepare for a "what if" scenario. Plan to have extra supplies, medications, a safe alternate heating source, etc. Plan to have a secondary location to move to should your primary residence become unfit to safely hold you and your family. Kennebunkport is a small community and lucky to have many volunteers, but the resources we do have can become quickly overburdened and may not be able to respond right away to a call that in many cases could have been avoided had the caller taken the time to plan.

I had an old Sergeant Major tell me a long time ago, "Son, prior planning prevents poor performance." To this day, I remember that valuable information not only because I was scared to be in front of the Sergeant Major, but also because it is true. When I know that I must be away from my family to be in Kennebunkport to manage a pending event, I plan and get my family ready to be safe at home during my absence. If each of us took just a little time to do the same, many sad events could be avoided.

Craig Sanford, EMA Director

KENNEBUNKPORT FIRE DEPARTMENT REPORT

Kennebunkport firefighters worked with crews from Arundel and Kennebunk to conduct a training burn of an old mobile home on Arundel Road in July 2016.

The Kennebunkport Fire Department consists of 76 volunteer members responding from the Town's four fire stations: Cape Porpoise, Goose Rocks Beach, Port Village, and Wildes District. We presently operate 12 pieces of fire apparatus, plus two 14-ft Zodiac rescue boats for search and rescue.

Kennebunkport's firefighters are men and women of all walks of life who are committed to the safety of our town. As a volunteer "call force," we are paid only for response to calls and training time. We respond to fire calls, motor vehicle accidents, water rescue situations, hazardous materials incidents, missing person searches, and many other types of emergencies. During severe storms and other disaster situations, we stand by to assist the community in any way that may be needed. We routinely provide mutual aid assistance to the fire departments of Arundel, Biddeford, Kennebunk, and Wells; and they, in turn, assist us as needed.

Kennebunkport firefighters train regularly in many areas of our operations. Over 40 of us are trained and state-certified in structural firefighting at the Firefighter 1 or 2 levels. Many members have completed training in HAZMAT and Weapons of Mass Destruction Operations, automobile extrication, ice and water rescue, various types of technical rescue, wildland firefighting, and many other specialized areas.

During 2016, our members devoted over 2,250 hours to training, most of it under the guidance of our own state-certified instructors: District Chief Jim Burrows, Captain Jamie Houtz, and Lieutenant Chris Welch. One of our members,

Courtenay Kinney, completed state certification as Firefighter 1 and 2 through the York County Chiefs' Fire Academy, spending over 240 hours training toward this objective. She is the third generation in her family to serve as a Kennebunkport Firefighter! Thank you and congratulations Courtenay! Last year, we were also fortunate to have six new members join our ranks. We welcome Jim Black, Eric Earle, Mike Lynch, Pat MacHugh, Bob McDermott, and Michelle Martel to our team. Mike, Bob, and Michelle all have extensive firefighting experience, which is very much appreciated.

If you are interested in learning more about what we do and possibly becoming a member, please call the Fire Department business office at 967-2114 or ask any Kennebunkport Firefighter. Your inquiry may lead to one of the most rewarding things you have ever done!

Dick Stedman, Fire Administrator

CAPE PORPOISE PIER HARBORMASTER REPORT

Those currently using the pier at this time are: 47 fishing boats, 24 recreational boats and 4 lobster dealers.

Pier Dues in fiscal year 2017:

Dealers	\$737.32
Lobster Boats	\$648.96
Recreation	\$415.34
Punt Fisherman	\$415.34

Additional fees are charged for extra bait spaces and additional boats.

Mooring permits issued: **2013 2014 2015 2016**

Cape Porpoise	113	114	122	85
Goose Rocks	48	60	67	61
Lands End	14	17	21	14
Paddy Creek	6	6	12	10
Turbats Creek	12	15	21	19
Total	193	212	243	189

Work done at the Cape Porpoise Pier in fiscal year 2017

The coolers in the bait shed were replaced with three bronze-coated evaporators and two new Trenton Compressors, and Southern Maine Refrigeration installed all new plumbing. Everything is up and running.

Because of water damage and rot, the paneled walls inside the bait shed were replaced with pressure-treated plywood which is faced off with vinyl sheathing. There is also a new saltwater wash-down pump for the bait shed.

Work was needed and completed on the fuel tanks. A corroded vent cap was replaced in order to pass tank inspections. This work was done by Adams and Fogg.

The last three floats were built and are in place with a new ramp.

Upcoming projects for the fiscal year 2018

The Cape Pier Chowder House will get a new coat of paint in the upcoming budget. This building is owned and maintained by the Town.

The wall under the front of the pier has been breaking down over the years and is now in the need of attention. Engineer work will be done this year to develop a plan for repairs to the wall.

To all mooring owners and people on the waiting list: Any changes to your personal information must be reported to the harbormaster ASAP. All moorings must be permitted every season by May 1.

Have a fun and safe boating season!

Lee F. McCurdy, Harbormaster

KENNEBUNK RIVER HABORMASTER REPORT

Harbormaster Raymond Billings

Another season has passed, and another busy one at that. The 2016 season got under way quickly after the 33 or so moorings were inspected. Four individual moorings in the river were given up by the previous owners for various reasons, which allowed the next four persons in line on the Kennebunk mooring waiting list to obtain a mooring. The average wait time to obtain a mooring once on the list is about 10 years. The cost to be on the Kennebunk mooring waiting list is \$15 per year, with an annual application to be sent in. You can visit the Kennebunk Town webpage to print out an application, or you can call the harbormaster to have one mailed to you. There are restrictions and rules per the Kennebunk Harbor Ordinance pertaining to mooring use, so please contact the harbormaster for details.

May was busy once again with the inspections of approximately 33 moorings of the total 68 as required by the biannual mooring inspections. The moorings are inspected visually top to bottom biannually, with the optional use of the Town-owned work barge for the flat rate fee of \$100. Any tackle deemed unsafe will be replaced by the harbormaster. The owner of the mooring will be required to repay the Town of Kennebunk for any new tackle that was replaced. Prior to any inspection work being performed however, the owner will be given the option to do the work themselves with a visual final inspection by the harbormaster, or have the harbormaster conduct the job completely. A mooring inspection form is included with the mooring registration if the mooring is due for inspection. The form will need to be signed and returned indicating the owner's option for conducting the required inspection.

Mooring registrations are \$150 for both nonresidents, and residents. Mooring registrations for commercial fishing use are \$100. Mooring registrations are renewed on an annual basis. The Town also has two transient moorings for the nightly use of \$25 per night, with a three-night maximum stay. Please call 207-205-0991 for transient mooring reservations, or if you have any other questions about the moorings in the Kennebunk River.

The addition of the sailing schooner *Spirit of Massachusetts* at Performance Marine finally came to fruition as a new floating restaurant for the season. After a year of transforming the 110 ft. ship into a restaurant and bar, the ship became a welcome sight for many. Located close to the Mat Lanigan Bridge, the area visitors can view the tall ship and imagine what the Kennebunk River looked like during the ship building era of the time. Many tall ships of her size lined the river banks, and shipbuilding was the foundation of the how the towns began.

Speaking of the Mat Lanigan Bridge, prep work started on schedule during the summer with utility work, planning, and coordination to do the scope of the project. A temporary pedestrian bridge will be constructed, and will span from across the Big Apple convenience store to behind Hurricane Restaurant at the Town parking lot. River traffic transiting on the north side of the bridge will still be able to do so, as the temporary bridge will not be an obstruction. The full reconstruction of the bridge will begin about the first of January, and completion will be about the end of May. There will be a full closure of vessel river traffic at the bridge site from mid-January to about mid-April. Please contact the harbormaster for continued updates.

Several marinas were finally able to be dredged this past winter after the previous winter proved to be too harsh due to continued brutal sea conditions prohibiting the dredge scow to transit out to the dumping site. The Arundel Yacht Club, The Yachtsman, Kennebunkport Marina, and Dimillo's Marina now have adequate water depth with about 6 ft. at mean low water; however, the Kennebunk River is still in need of a full dredge as there are areas of 4 ft. at mean low water. The area off the Nonantum and mooring basin is the worst location for grounding on negative low tides, so boaters with significant draft should take notice. The Army Corps have been notified and have conducted a water depth survey. As of 2016, it still does not

meet the criteria to be funded for a dredge due to stringent funding of the government and is also considered a lower priority than other rivers and harbors. Ongoing communications with the Army Corps continue.

For mid-June, the Kennebunk River saw its first boat parade since the early 80s. It was sponsored by the Kennebunk, Kennebunkport, and Arundel Chamber of Commerce and is called "Launch." The parade was a huge success with about 15 boats participating for the first year. It was put on to support and help people with cancer and their families. Each boat was decorated with lights, had a tropical theme of some kind, and was judged on its decorations and enthusiasm. The tour boat *Kyle's Chance* was used for the enjoyment of the families to be part of the parade and have a great night out on the water. An after party with live music was held on the *Spirit of Massachusetts* where the judging took place with cash prizes. As it was such a fun time by all, many people look forward to the next parade with even better decorations.

July 4 was yet another fun-filled night with fireworks off Gooch's Beach. More than 60 boats filed down the river to watch, and all returned in complete darkness in an orderly fashion with no issues. I am very grateful and thankful that all the captains were respectful and well mannered on a night that has the most river traffic of all, all summer long.

Another fun-filled event is the annual "Paddle Battle" which took place in September. The race of kayaks, canoes, paddleboards, etc. starts from the Nonantum Resort, to the Mat Lanigan Bridge, and back again. About 50 or so paddlers entered the event, and a large after party for all was held on the Nonantum riverbank. Again, a crazy hour or so on the river, but no issues arose, and it was a well-run event.

The Government Wharf Revitalization Project is finally going to happen. After the past five years of talking about it, demolition and new construction is now scheduled for 2017. The project will entail a new wharf, bait shed building, and the parking area will be graded to be in code of the flood plain levels. This has been a longtime coming, as the present wharf and infrastructure is rotting away. It is the last area on the Kennebunk River that is a commercial fishing wharf and vital to the fishing community and its future. Last spring, the public dock area was the first part of the project with dredging and a seawall to hold back the sands of the beach area. New pilings were added, and a new dock and ramp will be constructed for 2017 for public use.

As the popularity of paddleboards and kayaks are on the increase, I would like to urge these operators that you **must** obey the Navigational Rules of the Road like any other vessel. When paddling your board, canoe, or kayak, you are considered a vessel like any other boat on the water, powered or not. You must stay to the **right** of the channel in the direction of travel, and as far to the right as possible. Always be aware of what is behind you, and let any vessel larger than you, pass you. That being said, I highly recommend the small nonmotorized watercraft to explore and

enjoy the less busy sections of the Kennebunk River from the Mat Lanigan Route 9 Bridge to the north. It is a treasure of the Kennebunks that sometimes is overlooked. Contact the Kennebunkport Conservation Trust for more information on launching hand-carry watercraft and for parking for that section of the river. For powerboats large and small, a reminder that a “no wake” rule is strictly enforced on the **entire** Kennebunk River. Your speed is only allowed to be “headway speed only,” which means the slowest speed a vessel can operate while maintaining steerage. You are responsible for your wake and any damage or injury you cause.

In closing, I am sorry to say this is my last year as the Kennebunk harbormaster. The position is a part-time job, but I can no longer devote the time to do the job as well as I would like. As many know, I am a commercial lobsterman and that business requires a considerable amount of time. So, that being said, it is time to pass the torch. I have truly enjoyed serving the towns as harbormaster, and it has been a privilege working with everyone to keep such a smooth-working harbor. I will continue to be on the river for as long as I can see, working and enjoying every bit of it, and also volunteering time to offer what I can for various projects now and in the future. I have been on the river for over 30 years and know so many people affiliated with it in every aspect. I plan on continuing that relationship for many years to come.

Thank you for your support over the years. I greatly appreciate it.

Raymond Billings, Kennebunk Harbormaster

PARKS AND RECREATION DEPARTMENT REPORT

I found in a recent fortune cookie “Wherever you go, whenever you can, try to leave a gift.” I feel as if I have been trying for 35 years to leave a gift to the Town of Kennebunkport, and the difficulties of 2016 made the need for optimism and a positive attitude even more apparent.

We spent our third summer away from Consolidated while the renovation project got underway. The unique challenge from the previous two summers was that we ended up at Sea Road School sharing the facility with the Kennebunk Summer Day Camp. Our attendance was strong, averaging just under 100 children/day. We coordinated schedules and offered field trips almost every day for one or more of our groups. Though enjoyable for some, the constant movement was taxing on the staff. After eight weeks of “regular” camp, we again offered and filled two weeks of post-camp. Day camp was so time consuming that many of our other activities and programs just did not happen.

Fall was challenging as well. Luckily, it was dry as we had to run our entire after-school program outdoors on Parsons Field because the gym was not ready for use. Our youth sports programs of soccer and basketball were both successfully run with the Arundel Recreation Department. We experienced some growing pains and struggled with a lack of gym space (again due to school renovations), but we are planning improvements for next year.

Highlights for the year included the continued cooperation with the Portside Rotary Club. We got permission from the Board of Selectmen to develop a trail from Rotary Park at Beachwood to the Bradbury Trail, which runs from Cape Porpoise to Tyler Brook. We started cutting trail for the Rotary Loop and marked the connecting Beachwood Trail. Further assistance from a Rotary grant will provide a restroom facility at the trailhead/park.

Though writing the annual report is obviously a time for reflection, it is also an opportunity to look to the future. New playground structures will be installed at Rotary Park and at Parsons Field in the spring of 2017. We are anxious to get settled back home at Consolidated for the summer. And, if it makes it through the budget process, we will begin construction on a new building for the recreation department. While it will not eliminate our use of Consolidated School, it will allow us greater independence and flexibility. It will replace the existing office/program space and the existing concession stand/storage building on Parsons Field. It will also add restrooms and kitchen space for our use. Remember the fortune cookie; that project would be a true gift to the Town of Kennebunkport!

Carol G. Cook, Director

PLANNING AND DEVELOPMENT DEPARTMENT REPORT

2016 was another busy year in the planning and development department. I continue to dedicate time and efforts into various municipal projects along with providing consistent staff support to the Planning Board, Growth Planning Committee, and Zoning Board of Appeals. In addition to my duties for the Town, regionally I continue to represent Kennebunkport as a member of the Executive Committee for Southern Maine Regional Planning and Development Commission.

This year, Kennebunkport partnered with The Workforce Housing Coalition of the Greater Seacoast in hosting a workforce housing charrette for Kennebunkport. The charrette was the beginning of a discussion with the community on addressing the housing needs of median-income earning residents. We learned that this is a complicated matter that will take thoughtful discussion and regulatory changes to bring about meaningful results.

The June warrant had the following Land Use Ordinance changes:

Residential Rental Accommodation: With Kennebunkport's aging demographic, it has become quite common for single, often widowed, property owners who are seeking additional income to turn to their greatest asset—their property. Renting out a few rooms seems on the surface to be a quite logical, low impact way of gaining the additional income that they need to be able to afford to stay in their homes. For many, they never dreamed that this activity would rise to the level of being a zoning issue, much less something that has produced so much conversation and passion both for and against.

Over the past year, we've heard from many that without updated guidelines and some controls in place, the potential for abuse and negative impact to neighbors exists, especially by those who have a lack of respect for those around them. Many are concerned for the character of their community; increased rental activity spurs for many negative images. With all of this in mind, the Growth Planning Committee drafted revisions for the voters to weigh in on. The revisions were significant, so a new description "Residential Rental Accommodation" was put forward to better distinguish the performance standards between approvals granted before and after this ordinance amendment. Major amendments proposed:

- Require that the property owner be in residence while rooms are rented. Current standards do not require this.
- Issue approval only to the property owner that does not run with the property. In other words, if the home is sold, the next person would have to reapply for permission to continue renting up to two rooms.
- Restrict rental of rooms to no more than once per week.

- Require Code Enforcement inspection to ensure compliance with applicable building codes prior to issuance of permit.
- New enforcement language allowing for a revocation of the permit and an appeals process.
- Conditional use requiring Zoning Board of Appeals approval extended to all zones in town and removes a current restriction allowing it to only occur in homes that were in existence prior to 1972.

Werner Gilliam, Director of Planning and Development

KENNEBUNKPORT POLICE DEPARTMENT

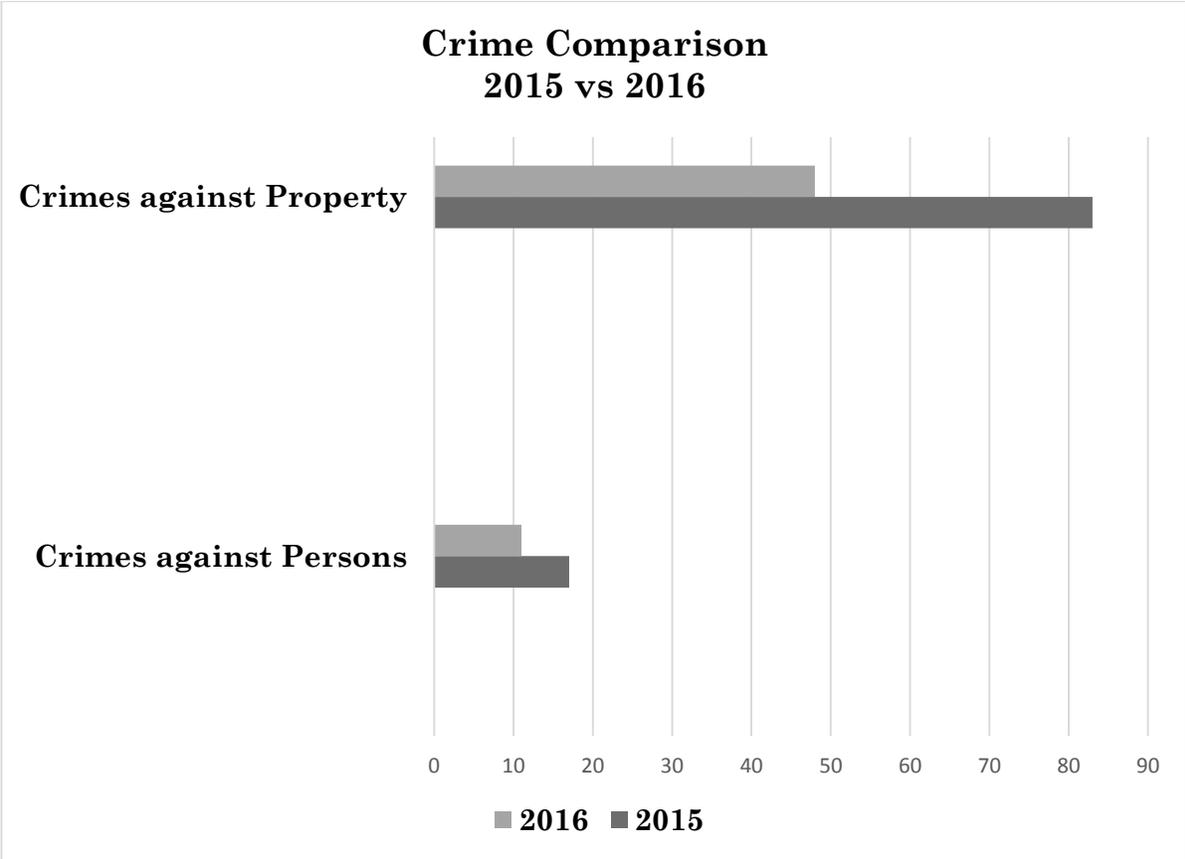

The Kennebunkport Police Department underwent significant change during 2016. The construction of a multifunctional space was completed in late fall which included locker rooms for male and female officers. Before anything could start, the wind turbine was removed from the middle of the parking lot. The addition to the front of the building allows the agency to handle developing situations that require secure space. The new space will also allow training classes to come to the area preventing long travel times and staffing issues. New modern lockers were installed in the locker rooms which allow officers to store uniforms and equipment preventing accidents and loss. We also took the step to replace and relocate the generator that runs our facility during power outages. I can tell you that having the generator previously inside and underneath my office when it occasionally backfired was interesting!

We were able to upgrade in-car computers and replace older operating systems. Internal air cards have proven to be more successful in staying connected to mobile towers and maintaining communication links with state systems. Uniforms were changed from older more expensive styles to a more practical duty-ready uniform. The change dropped the price of a full uniform by more than \$75.00.

The agency had a staffing change in 2016 as well. Rookie officer Daniel Place took a position with the Bangor Police Department. He was given a house in the Bangor area and had to make the move. He was a good officer, and we wish him well in his

new position. To fill the open position after a lengthy process, we hired veteran Officer Scott Slawson who was working in York as a full-time police officer. He not only had several years with York PD but also has experience with the Secret Service. He comes from a law enforcement family and has become a respected member of our agency.

Crime statistics show a marked drop in overall crime in 2016 compared to 2015. I can say we still see residents fall victim to the multitude of scams in the world. I urge each of you to think about what is being asked of you when a stranger calls and demands money. If they are asking you to go and purchase gift cards or send money via some service, it most likely is a scam. Call a trusted family member or the police department if you are unsure. NEVER give personal information over the phone. Ask for a phone number and call them back. Even then, confirm the number with resources available such as the Internet. A quick search on-line usually will reveal that the phone number is attached to a scam.

I want to thank the men and women of the agency that serve our great community. These dedicated men and women go far beyond normal protocols ensuring the community is safe and served with honor and integrity. We are only as good as the support we receive from other town staff and the citizens of Kennebunkport; for which, I am very thankful.

Craig A. Sanford, Chief of Police

PUBLIC HEALTH AND NURSING SERVICE REPORT

The Kennebunkport Public Health Department is located at 101A Main Street, sharing the site with the Kennebunkport Police/Communications Departments. A nurse is in the office Monday—Friday, from 8:00-9:30 a.m. and from 1:00-2:00 p.m. Messages may be left on the nurses' answering machine by calling 967-4401. The on-call nurse monitors for messages on weekends and holidays. Any messages left after 4:00 p.m. will be returned the following morning.

Residents are encouraged to visit the nurses during office hours for blood pressure readings, blood sugar evaluations, dressing changes, treatments, and consultations. The office provides a variety of free resources and materials regarding disease prevention, health promotion/education, and community events.

The Public Health Department continues to actively promote programs that focus on improving the health and welfare of our community members. Our service provides skilled nursing care in residents' homes as well as at the Public Health Office. Coastal Rehab, Interim Health Care, and MaineHeath Care at Home assists our staff by providing Medicare and private insurance covered services such as occupational therapy, physical therapy, speech therapy, home health aides, and certified nursing assistants. The nurses made 1,454 home nursing visits and 196 health supervisory home visits. Residents made 287 office visits for treatment and 275 for consultations. We would like to remind residents that the Public Health Department has a free durable medical equipment loan closet. This closet is funded by the Health Council. Articles include wheelchairs, walkers, commodes, toilet risers, crutches, canes, and adaptive home equipment.

Eight Health Officer complaints were filed and responded to by the Public Health Director. All Health Officer complaints are directed to and investigated by your Public Health Administrator. State of Maine legislature mandates that each Health Officer completes a six-hour certification program as well as recertification courses yearly. This past year, Maine Public Health placed emphasis on training Health Officers regarding hoarding, well water safety, lead poisoning, obesity, and public/private nuisance complaints. In the event of an infectious disease outbreak, the Health Officer is required to work closely with Maine Public Health to report, monitor, and follow up on treatment and precautions to prevent the spread of the illness in the community. The Health Officer is responsible for distributing in the community the most current information regarding symptoms and treatment as well as the status of incident that adversely affect the public's health until there is no longer a danger to the community.

The Public Health Administrator administers the General Assistance Program, as well as the social service programs for Kennebunkport residents and guests. The status of this function can be found in the General Assistance report.

The Public Health Department continues to offer numerous outreach programs. Residents are encouraged to use our website as a resource. Amongst the

information to be found are: drug awareness and rehabilitation facilities, senior resources, emergency preparedness, Alzheimer's programs, environmental health concerns, even links to hiking trails. The Public Health Department and Rite Aide Pharmacy offered a very successful Flu Vaccine community clinic. This past year, we continued to participate in the Million Hearts Campaign. We worked closely with KEMS to offer adult and child CPR and AED classes for the community as well as continued with our Heart Safe Community Program. Kennebunkport community of crochet and knitters made 45 premie and new born baby hats for a February hospital nursery distribution as part of the Little Hats Big Hearts Project. The Public Health Department has developed a fall prevention program. We have created a fall prevention pamphlet with helpful tips and ideas along with resources needed to make your home safer from falls. Many things contribute to falling for example: medications, weakness, and clutter in the home. Contact us for help making your home safer to help prevent falls. We are working hard to help keep you in your homes safer and longer! "Home is the Comfiest place to be"—Winnie the Pooh.

On June 4, the Public Health Department and Nelson Analytical Lab/Kennebunk sponsored our annual Well Water Testing Day. The Public Health Department continues to offer this yearly event. The kits are free and there is a reduced fee for Kennebunkport residents. It is extremely important to have your well water tested every year for a dug well and every three years for an artesian well. There are over 1,000 households in Kennebunkport who rely on well water.

Residents are reminded not to discard unused prescription and over-the-counter medications in your household trash or sewer/septic systems. Please deposit your medications in the large green secured box located in the Police Department's lobby. Disposing medications in your septic or sewer system can adversely affect the systems efficiency as well as influence the status of our watersheds. **NO SYRINGES.** Those who are using sharps such as syringes to treat diabetes and various illnesses, please bring them to our office for disposal in our Hazardous Wastes container. The Kennebunkport Public Health and Police Department participated in the drug disposal project sponsored by the Maine Attorney General's Office.

The Kennebunkport Healthy Maine Beach team had a busy summer. An elevated enterococci bacteria advisory was posted 8 times, 4 of which were Precautionary Advisories. The Precautionary Advisory theory is that during and after a rainfall of over 1 inch in a 24-hour period, there is a greater chance of elevated bacteria counts due to the leaching of water from brooks and streams to the mouths of our rivers. The Advisory is in place for two tidal cycles after the rainfall is over. Our highest sample readings were on June 7. The Colony Beach sample result was 650 and the Proctor site sample result was 857. The EPA sets 104 bacteria in a teaspoon of water as the maximum limit for safe water contact.

The summer of 2016 dedicated water sampling testing team consisted of Linda and Steve Hanna, Paul Hogan, Alison and Seth Kenneway, Harvey Flashen, Bill Nixon,

Lee McCurdy, Barbara and Dan Tarr, and Judy Barrett. The Portside Rotarians, local lobstermen, and volunteers from the Conservation Commission and Kennebunkport Conservation Trust conducted two huge beach/island clean-up days.

The Kennebunkport Health Council invites any resident of the Town who is interested in the health and social welfare of the community to join the volunteer board. Please contact the Public Health Department for meeting dates and times.

We wish to extend our appreciation to Dr. Willard Stitzell, D.O., the members of the Kennebunkport Health Council, the Healthy Maine Beach volunteers, and to all who have assisted us in our efforts to maintain a healthy community. We also wish to thank all of our patients' families and friends who remembered our office with memorial donations.

Judith A. Barrett, R.N., B.S

Alison Kenneway R.N. B.S.N.

GENERAL ASSISTANCE REPORT

General Assistance Program

The General Assistance Program is mandated by the State of Maine legislature. All recipients are responsible for meeting their own basic needs by any means available before applying for General Assistance. All eligible recipients are required to perform workfare; a failure to do so or falsifying information on an application results in an automatic disqualification of benefits for 120 days in any Maine community or township.

Seven General Assistance applications were requested. One application representing one resident was filed during July 1, 2015—June 30, 2016. No applicants qualified for the State of Maine General Assistance Program. The number of actual applications filed does not reflect the residents who requested an application and a meeting to discuss the process, then decided not to apply for this program mostly due to the budget review and accountability process. As Kennebunkport's GA Administrators, the focus continues to be assisting residents with finding resources that meet the escalating housing, food, and heating costs.

Kennebunkport passed the Department of Health and Human Services GA audit again this year.

During the winter of 2015—2016, the Kennebunkport Emergency Fuel Program provided for 33 emergency fuel deliveries of 100 gallons and assisted with avoiding 8 CMP disconnects. This program is funded by donations. Your generosity is assisting many families who would be struggling to keep warm. The Kennebunkport Emergency Fuel/Food Program has enabled us to dedicate all funds budgeted toward the State of Maine General Assistance Program to be allocated toward housing assistance. Affordable housing continues to be the major problem placing our families in crisis. It is currently a requirement for the majority of social service agencies to refer a client to the resident's General Assistance Administrator for a budget review prior to requesting assistance from their agency. It takes time

to assist residents or a relative who needs guidance as to where to start through the changing options in both the private and governmental sectors.

Residents are encouraged to apply for the State of Maine Refundable Property Tax Fairness Credit. Kennebunkport offers to town residents the Kennebunkport Property Tax and Rental Refund Program. Residents must qualify for the State of Maine Rebate Program before applying for the Town of Kennebunkport's Program.

The Affordable Care Act continues to enable a number of our working residents to have medical coverage. Many for the first time in their adult lives.

York County is fortunate to have a free medical service that provides care for those without insurance.

York County Community Health Center
15 Oak Street previously the Nasson Campus
Springvale, ME
490-6900

Hours: Mon./Wed./ Thurs. 8 AM–6PM

Tues. 8 AM–7 PM

Fri. 8 AM–5 PM

This facility does accept clients who have insurance, MaineCare, or are uninsured.

Food Distribution

The major concern as your General Assistance Administrators continues to be the number of families who are experiencing difficulty with providing meals for their household. This past year, the Community Outreach Services Program provided 56 food boxes. Many households utilize this program a number of times a month. One hundred forty-two food vouchers for fresh fruits, vegetables, meat, fish, and dairy were issued. Community Outreach voucher program expended \$6,421 to assist Kennebunkport residents. What is alarming is that of the 142 vouchers issued, we had 72 household requests with residents over 60 in need of food. To access this program, residents must contact the Public Health Department at 967-4401, Monday–Friday, before noon. Church Community Outreach also provided Kennebunkport residents in need with personal and household supplies. The Church Community Outreach Services offers a fresh produce/bakery goods distribution 9 AM, on Fridays, at Saint Martha's Church, Route One, Kennebunk. The number of Kennebunkport residents utilizing this weekly distribution is also increasing.

This past summer, the Church Community Outreach Services and Community Harvest volunteers provided a free summer lunch program for children who were eligible under the free or reduced school lunch program. When school is not in session, millions of children in our nation do not have access to three meals a day. This affects their physical and mental development.

At this time, I would like to extend a special thank you to all who donate nonperishable food at the various collection sites, and to those who pick up the goods at grocery stores and bakeries and deliver them to our community food pantries, soup kitchens, and shelters. Thank you to: the stockers of shelves, the packers of boxes, the drivers who deliver the food boxes to our office, and the special needs shoppers. Thank you to the Plant-A-Row volunteers who are out in the fields gleaning fruits and vegetables, and to the home gardeners and farmers who dedicate part of their harvest to feed our neighbors. Thank you to those who took time out of their busy holidays to shop, pack, and deliver holiday dinners. And, last but not least, the Kennebunkport Health Council for sponsoring Stuff the Bus on both Election Days. Kennebunkport residents filled the pantry shelves and corridors. Residents purchased 28 backpacks and filled them with school supplies for the Stuff the Backpack project.

Secret Santa provided Christmas gifts for 9 Kennebunkport children. Fifty-two holiday dinners were delivered. There was no Salvation Army activity this past year. Six seniors received special holiday gift bags from the Senior Center at Lower Village. The Sea Coast Garden Club provided 15 boxwood trees for our seniors.

We still collect used cell phones for Shelter Alliance to assist Caring Unlimited. Please leave them at our door, and we will be sure to pass them along to the appropriate agency.

General Assistance Administrators

York County General Assistance Administrators continue to meet with various federal, state, and private sector representatives to review methods of funding and alternative resources to meet community residents' basic needs. General Assistance Administrators are also required to attend the Department of Human Service classes to keep current with new legislation.

Thank Yous

A special note of thanks is extended to the Church Community Outreach Services, Community Harvest, Kennebunkport Health Council, Wildwood Fire Company's Ladies Auxiliary, Church on the Cape, He Cares Ministry, Village Baptist Church, Advent Christian Church, Secret Santa, Seacoast Garden Club, American Legion Auxiliary, Eastern Star, Portside Rotary, the Kennebunkport Village, and Goose Rocks Beach volunteer fire members. We would also like to thank those in our community who donate their time and resources to help our neighbors in need.

Any resident of Kennebunkport, who is in need of assistance to meet a basic need, or who has any questions concerning federal, state, or county programs is encouraged to call the Health Office at 967-4401.

Judith A. Barrett, R.N., B.S.

Alison Kenneway, R.N., B.S.N.

PUBLIC WORKS DEPARTMENT REPORT

The winter of early 2016 had little in the way of heavy snow. The storms we had were typically snow mixing with rain events. Our public works crew worked hard to clean these storms up quickly and prevent ice build-up on town roads. The lighter winter weather allowed the crew to get a start on spring cleanup and our roadwork. As soon as the frost was out of the ground, the public works crew started on constructing a road base for a new paved shoulder on New Biddeford Road. Along with the shoulder work, we replaced or extended cross culverts for drainage improvements. The new widened shoulder was paved in early May ahead of our Memorial Day deadline.

In the spring, the public works crew installed a new cash machine and protective canopy at the Dock Square restrooms for improved parking lot operations. This helped reduce parking lot ticket payment time and saw less parking lot backups during peak hours. In addition to preparing the flower beds at the Dock Square Monument with new compost, the crew planted perennial flowers at Cape Porpoise Square and at the Mills Road traffic islands leading to Goose Rocks Beach. We worked with the Goose Rocks Beach Committee on consolidating and installing new signage at beach entrances. The crew installed two new memorial benches on Parsons Way and replaced an old memorial bench at Government Wharf. Crew members cut and waterproofed the cedar slats and installed base material prior to placing the memorial benches.

On Ocean Avenue, public works joined with the Kennebunk, Kennebunkport, and Wells Water District (KKWWD) to extend the water main through Ocean Avenue to Turbats Creek. After KKWWD completed their water main work, the Town reconstructed and base paved Ocean Avenue with new paved shoulders from Walkers Point to Turbats Creek Road. Langsford Road and Ward Road were top coat paved in Cape Porpoise. Goose Rocks Road was paved and shouldered from Guinea Road to Log Cabin Road. Northwood Drive and Stonewood Lane were paved with a maintenance overlay. The overlay paving work will extend the lifecycle of these streets by many years.

Public works continued reconstruction of North Street between River Road and Maine Street. We stabilized the west side of the road with a new granite curb that allowed for good drainage between the 30 North Street parking lot and Mill Lane. Public works along with Dirigo Slipform installed new drainage, a granite retaining wall, and a concrete curb from Tombs Hill Cemetery to River Road. Dayton Sand and Gravel reclaimed the road back to base material with public works maintaining the road grade by removing excess reclaim material. Ciment Québec added dry cement to the base material from the Tombs Hill Cemetery to River Road due to a substantial clay subgrade under the road base. The road was base paved followed by public works and Dirigo Slipform installing new curb and sidewalk from Maine Street to the 30 North Street parking lot. We plan on reconstructing the section of North Street adjacent to the Olde Port Village subdivision following utility work scheduled for 2017.

Public works and the police department worked together on the site improvements as part of the police department emergency management expansion. We continue to work with the parks and recreation department to help maintain town parks and fields. We utilized compost from the wastewater department to screen loam for town road projects. Public works continued our joint crack sealing program with the Town of Arundel. We did joint projects with the Town of Kennebunk where we rented a screener for processing gravel from excess reclaim trucked from road projects in each town while Kennebunk supplied a grader and operator to work on our gravel roads.

In late November, public works and Kennebunk Light and Power cut and set the Dock Square Christmas tree for the Kennebunkport Business Association's annual Prelude celebration. Thank you to Kennebunk Light and Power along with the Prelude volunteers for all the work done preparing Dock Square and Cape Porpoise Square for the tree lighting and other Prelude activities.

Town Mechanic

Bob Pappas worked with the police department on preventive maintenance and service for the police department fleet. In addition, the police department scooter and ATV, which had been stored for several years, were serviced and repaired to running condition for auction. Fire trucks from various stations were serviced for oil and fluid changes. The brakes on the Cape Porpoise Fire Station ladder truck were replaced. The fire department water rescue trailer was rebuilt. Small equipment from all town departments, including snow blowers, mowers, and chainsaws were serviced and ready for summer and winter operation.

Bob is also the assistant harbormaster in Cape Porpoise. Assistance was made in repairing the harbormaster boat, bait shed freezer, and Cape Porpoise Pier hoist system. He assisted the Cape Porpoise harbormaster in the Cape Porpoise Pier float replacement project and in setting the new aluminum ramp to the floats.

New 1-ton plow trucks were purchased for the public works and wastewater departments. A new, single-axle plow truck was purchased for the public works department.

At public works, our major project was a rehabilitation of our tandem-axle plow truck. The truck body was sandblasted for rust removal and the body painted. Bushings were replaced in the rear suspension; brake drums and wheels were replaced; and the transmission flushed and serviced. On our sidewalk tractor/roadside mower, the water pump, front differential, and radiator were replaced. New springs with added capacity were installed on all single-axle plow trucks. All repair work will extend the service life of town equipment and raise the resale value of equipment when replaced in our capital equipment program.

Bob utilized town equipment to remove a dead whale from Goose Rocks Beach on a hot, summer day. He loaded the whale into a town dump truck and drove the whale to a Gorham compost operation for disposal. All in a day's work for the town mechanic.

Michael Claus, Director of Public Works

REGISTRAR OF VOTERS

We saw many changes to our voter registration list in 2016 due to the presidential election in November. Most of the changes were because people moved into or out of town. These changes occur throughout the year so it can be difficult to say exactly how many registered voters we have on any given day; however, as of the day of this report, the total registered voters is as follows:

863 - Democratic
923 - Republican
67 - Green Independent
8 - Libertarian
919 - Unenrolled Voters

2,780 - Total Registered Voters

I would like to thank Audrey Williamson, Becky Nolette, and Barbara Barwise, my Deputy Registrars of Voters. I could not have processed all of the requested changes that the November election brought without their help.

If you have any questions about the election process, voting, or registering to vote, please call me at 967-1610. Otherwise, don't forget to exercise your right to vote!

Tracey O'Roak, Registrar of Voters

TOWN CLERK REPORT

My first year as your Town Clerk has been full of warm welcomes and new experiences. Thank you to all of you who have stopped by to introduce yourselves and make me feel right at home. I truly appreciate the opportunity to serve this wonderful community, and I look forward to many years ahead as your Town Clerk.

Although we are a small office, I believe that there is always room for growth and improvement. With that in mind, we have started using a new software program for our dog licenses. It will save time when our residents come in to register their dogs as well as give them an actual license to take home for their records. I look forward to finding other new ways to let technology improve our daily functions.

A huge thank you to Audrey Williamson, Becky Nolette and Rose Wills for helping to make my transition seamless. Their support and knowledge of the office have been invaluable. Customer service remains the number one priority in our office, and they work very hard to offer exceptional service to everyone who walks through the door.

The following is a brief summary of the 2016 town meetings and elections:

March 29, 2016– Special Election

There was a special election held to fill the office of State Senator after the resignation of Senator David Dutremble. There were 521 ballots cast either in person or by absentee ballot, with Susan Deschambault elected by a margin of 50 votes.

May 17, 2016–R.S.U. #21 District Budget Meeting

We vote on the school budget in a two-step process as required by the school consolidation law. The first step is to vote on the various segments of the budget at a district-wide meeting of Kennebunk, Kennebunkport, and Arundel voters. The meeting was held at Kennebunk High School at 7:00 PM for the purpose of approving the 2016/2017 school budget. The total budget proposed was \$43,043,706. After some discussion, all the articles were approved as written in the warrant.

June 14, 2016–R.S.U. #21 Budget Validation and Bond Referendum Election

The second part of the school budget process is the budget validation election. Kennebunkport, Kennebunk and Arundel each held elections at our own town polling places to approve the budget that was adopted at the above district budget meeting. In Kennebunkport, there were 712 ballots cast either in person or by absentee ballot. The budget passed here as well as in all three towns combined.

June 14, 2016–Annual Town Meeting

The first half of our Annual Town Meeting is a secret ballot vote to elect our town officials and to vote on any referendum questions that the Selectmen propose. This year, there were two Selectmen seats and one R.S.U. #21 Director seat. Patrick Briggs and Sheila Matthews-Bull ran unopposed for the two seats on the Board of

Selectmen, each with a term of three years. Constance Crandall and Maegan Lovejoy ran for the R.S.U. #21 Director's seat, with Maegan Lovejoy elected to a three-year term by a margin of 264 votes. There were 712 votes cast either in person or by absentee ballot.

June 14, 2016–State Primary Election

The state primary election allowed those enrolled in a qualified political party to vote for their candidates to appear on the November ballot. The offices to be filled this year were Representative to Congress (District 1), State Senator (District 32), Representative to the Legislature (District 9), and York County Register of Probate. There were 278 Republican, 327 Democratic, and 0 Green Independent ballots cast for a total of 605 voters participating.

June 18, 2016–Continuation of Annual Town Meeting

On Saturday morning, at 8:00 a.m., at the Village Fire Station, voters reconvened to vote on the 2016–2017 Town budget. The article that drew the most interest was one that was amended by a member of the Budget Board to reduce the funding for the Senior Center from \$2,500 to \$1,500. Several residents spoke against the reduction because of the life sustaining services that the organization provides to the people who use it. Some Budget Board members spoke in favor of the reduction because they felt that Kennebunkport is paying more than its fair share, and it is not the best use of tax dollars. After discussion, the vote to amend the article to reduce the funding to the Senior Center failed, and the article was approved as originally proposed. All other articles were approved as written in the Warrant.

November 8, 2016–Special Town Meeting

For this election, the Town ballot had two questions. The first question was an ordinance change to the Land Use Ordinance regarding roomers. The second question was whether KK&WWD should add fluoride to the public water supply. This question was voted in the Towns of Kennebunkport, Kennebunk, Wells, Biddeford, York, Ogunquit, and Arundel. This day saw 2,502 voters casting ballots either in person or by absentee ballots. The voters passed the amendment to the Land Use Ordinance regarding roomers by a vote of 1,266–1,068. The question regarding adding fluoride to the public water supply failed with a vote of 1,679–792. All seven towns collectively voted to remove fluoride from the public water supply.

November 8, 2016–State of Maine Referendum Election

I do not think that I could have asked for a more exciting election for my first as your Town Clerk! Between the vote for President of the United States and the six referendum questions, it was a very busy election season. We had 2,532 votes cast with 1,109 of those absentee. For a small office of three, that made for two incredibly busy months. Although Donald Trump won the Electoral College, Hillary Clinton had more votes in Kennebunkport (1,356-910). Voted into office were Chellie Pingree as Representative to Congress; Susan Deschambault as State Senator; H. Stedman Seavey as Representative to Legislature; Bryan Chabot as York County Judge of Probate; and Carol Lovejoy as York County Register of Probate. Two of the referendum questions led to some contentious results. Question

1 (Legalization of Marijuana) and Question 2 (3% tax on income above \$200,000) both came within ½% in the statewide vote. Both groups requested a statewide recount, but Question 2 proponents withdrew before the process began. Question 1 proceeded; however, they conceded after 30% of the precincts had been recounted with no change in the result. Locally, all of the referendum and bond questions passed with the exception of Question 2 which failed by 206 votes. Question 1 narrowly passed locally by 76 votes.

Finally, I want to thank Wayne Adams and Christian Barner who served as our Town Meeting Moderators and Claire Julian, who served as Warden for our elections. They put in very long hours on election days and kept the polling place compliant with all of the election laws. I also want to thank all of my ballot clerks. This year, Ann Adams, Lillian Bartlett, Barbara Barwise, Pierre Boulanger, Anne Marie Briggs, Helen Conaty, Jean Conaty, Doug Dicey, Jan Dicey, Dave Doubleday, Mette Eglinton, Lisanne James, Ki Leffler, Mary McLaughlin, Barry Nolette, Scott Nolette, and Gillet Page all gave up their time to work at the polls. They are loyal and dedicated citizens of the Town and we owe them a debt of gratitude for their service on election days. Lastly, I want to thank David Powell who provided the sound and video at our open town meeting. Since I am not a technology wiz, his expertise was invaluable.

And now the statistics for 2016 . . . We issued 98 marriage licenses, 623 certified copies of vital records, and 21 burial permits. There were 43 recorded deaths and 22 recorded births, of which 13 were boys and 9 were girls. We issued 830 dog licenses, 28 annual and 58 daily liquor licenses, 15 special amusement permits, 61 victualers licenses, 22 special event permits, 8 nonresident recreational clam licenses, 75 resident recreational clam licenses, 2 trolley permits, 2 horse-drawn carriage permits, and many hunting and fishing licenses. We also processed thousands of Dock Square parking lot vouchers and hundreds of Goose Rocks Beach parking stickers. In addition, we also processed over 7,000 tax payments, registered thousands of cars as well as 484 boats, 76 snowmobiles, and 38 ATVs, not to mention the constant stream of questions we answer and the miscellaneous tasks we do on a daily basis.

Please feel free to call me Monday–Friday, 8 a.m. to 4:30 p.m. with your questions or concerns at 967-1610.

Tracey O’Roak, Town Clerk

WASTEWATER DEPARTMENT REPORT

In 2016, the wastewater department developed plans with Wright Pierce Engineering to replace the Green Street and Chicks Creek pump stations. We plan to complete those projects in 2017 with approved bond funding. We hope to have cost savings on our bond funds by managing contracts to replace the roofs on the clarifiers, replace the four aeration tank blowers, the three influent and effluent pumps and our emergency generator system.

We have continued our annual grinder pump replacement work with our wastewater crew replacing 12 grinder pumps. We purchased a new 1-ton dual, rear-wheel, pickup truck with a plow to attend to summer and winter maintenance operations. The Board of Selectman voted to retain the flat-rate billing method that we are currently using.

In 2016, the wastewater treatment plant processed a total of 108,266,000 gallons of wastewater. The wastewater treatment process generated a total of 1,423,000 gallons of biosolids that was turned into 1,350 yards of compost.

Just for comparison, here are the numbers for the past three years:

Year	Gallons Treated	Gallons of Biosolids Produced	Yards of Compost Produced
2016	108,266,000	1,423,000	1,350
2015	102,110,000	1,741,950	1,978
2014	117,212,000	1,401,000	1,236
2013	113,875,000	1,319,970	1,348

Allan K. Moir, Wastewater Superintendent

THE BEACH ADVISORY COMMITTEE REPORT

And then there was the day the moose swam ashore!

2016 marked the fourth year of stewardship of Goose Rocks Beach by the Town and Beach Advisory Committee (BAC) pursuant to the Beach Use Agreement and Ordinance (adopted in the summer of 2012). This year, the Beach Advisory Committee held six public meetings throughout the year. Summer meetings were held close to the beach at the Goose Rocks Beach Fire Station to provide easy access for all to attend. Newsletters and meeting announcements were distributed via email to over 500 recipients. Minutes of meetings are published on the Kennebunkport Town website. Regular postings to the Friends of Goose Rocks Beach Facebook page enable all interested to keep track of and enjoy our beautiful beach with its events and news.

The new year of 2016 brought a review of signage at Goose Rocks Beach with an eye toward consolidation and making the message clearer. Information regarding dogs, parking, drone use, trash, and Piping Plover areas were included; and signs were placed along the beach at appropriate locations. The signs were ready and in place by Memorial Day.

Work was done to improve beach signs.

Spring elections were held and the BAC said a heartfelt thank you to Town Manager Laurie Smith and committee members: Meg Barry, Katie Nixon, and Paul Hogan whose hard work had been instrumental in getting this committee off the ground as their terms expired. We welcomed new members Bill Nixon, John Gorny, Kate Burke and Joanne Gustin. The committee unanimously voted to affirm that it will maintain the following subcommittees: Communications/Joanne Gustin, chair; Natural Resources/Bill Nixon, chair; and Traffic Safety/Richard Driver, chair.

On June 4, another very successful beach cleanup day was held. Significant progress was made in ridding Goose Rocks Beach of a winter and spring's worth of refuse. It was a day of beach beautification that also made a difference in the safety of wildlife and beachgoers alike. All volunteer driven, and neighbor meeting neighbor for a good cause.

Funding was provided for the hiring of an intern to focus on Piping Plover protection, monitoring, and education. This was a 20-hour a week position. Natalie Underwood won the job and worked at Goose Rocks Beach closely with Maine Fisheries and Wildlife and the Maine Audubon Society. Monthly reports on our endangered Plovers were delivered to the BAC. There were ups and downs for the Plovers, but at the end of the season the news was far more positive than negative.

With a nod toward providing public education, the BAC hosted two informational presentations during the summer. In July, guest speakers from the Marine Mammals of Maine joined our meeting and helped us understand their history and mission. They have been instrumental in several seal rescues on Goose Rocks Beach this year. Attendance for this educational meeting filled every chair. Always looking for volunteers, please visit their website to see where you can help out: www.mmone.org.

In August, our feature educational presentation was 21st Century Landscape and Lawn Alternatives on "How to Avoid the 'Linoleum Syndrome' and Attract Pollinators and Birds." Tricks of the trade to help us achieve a more environmentally friendly yard were presented to a standing-room only crowd. They showed that natural is better for the environment, animals, birds, and even us.

We were very pleased to receive a report in September highlighting the results of the 2016 water testing initiative spanning 14 Tuesdays from June through September. During this timeframe, water samples were taken from two local beaches (Colony and three locations at Goose Rocks Beach) and out of 56 samples, only 8 showed an exceedance of enterococci, a result that conforms with other programs at beaches around the globe.

As we close out 2016, the Goose Rocks Beach Advisory Committee thanks everyone for their support and looks forward to 2017.

BUDGET BOARD REPORT

The Budget Board is again pleased to submit its report to the citizens of Kennebunkport. As in previous years, we continue to have an excellent rapport and communication with the Board of Selectmen. We will meet with the Selectmen in joint session as the budget is presented by the Town Manager and department heads. We will listen carefully to the various presentations and the justification for their requests. We will request clarification when needed in order to make the budget requests and processes as transparent as possible. We will then meet as a separate board with the Town Manager and department heads, and review carefully every budget request that has been made. We will then make the Budget Board's recommendations.

As in previous years, the Budget Board will request that the administrative recommendations, the Board of Selectmen's recommendations, and the Budget Board's recommendations be printed in each article and be reported in the town meeting warrant.

The Budget Board feels that the process continues to be done in keeping with the democratic processes that have long been a custom and tradition of Maine and New England.

The Budget Board expresses its appreciation to all town employees, the department heads, the Town Manager, and the Board of Selectmen for their cooperation, assistance, and dedication to our community.

CEMETERY COMMITTEE REPORT

Like many committees in town, the Cemetery Committee is a group of volunteers. We work together to document, research, and help maintain the more than 70 cemeteries in town. Springtime is when we generally get out in to the cemeteries to do clean up, try to find graveyards we haven't all seen, note what tree work needs to be done, etc. If you are interested in joining us, just let one of us know or contact us through the town hall.

This year, we were made aware of three headstones off of Paddy Creek we did not know existed. Many years ago, Clarie Nickerson, along with other volunteers, researched and documented all the graveyards in town that she was aware of. The book she compiled is now at the Kennebunkport Historical Society where anyone can access it. However, since then, we have found some new burial grounds and unfortunately can't find some that she documented. They have been lost because Clarie's directions can't be followed due to changes in the landscape.

One of our committee members is working on getting all of the cemetery data onto a spreadsheet so that all of our information will be more easily accessed. This will be extremely helpful when someone is trying to find a specific person who is buried in Kennebunkport.

We have updated our map of where cemeteries are located in town, combining the map that Clarie Nickerson made, the map that Jim Steele made, and more recently found cemeteries.

We fielded a number of calls from people who were looking for where some of their relatives might be buried.

There are not a lot of rules concerning cemeteries. However, one rule the townspeople should be aware of is that the ground cannot be disturbed within 25 feet of a cemetery. The reason for this is that sometimes people were buried outside the cemetery. Many times no markers remain, so this is to safeguard the graves in case there are any outside the boundary. The Cemetery Committee worked with the Town this year to be sure this rule was being followed by a new development that was close to a cemetery off of Bufflehead Lane.

Continuing this year is the clean up and tree work on cemeteries. As always, each year, we try to replace or repair headstones that have been damaged or become unreadable.

Some large dead locust trees will be removed from the North Street Cemetery (Bass Cove) under the guidance of Steve Bryant. Jim Burrows continues to care for our larger cemeteries in town. That is why they look beautiful all seasons of the year.

Thank you to the homeowners who care for the cemeteries situated on their land. Thank you to the generous volunteers who give of their time to care for the hidden, forgotten, and out of the way cemeteries. As always, thank you to the American Legion for placing flags on our veteran's headstones every year.

CONSERVATION COMMISSION REPORT

In 2016, the Kennebunkport Conservation Commission continued its ongoing stewardship of protecting our town's natural resources.

In conjunction with the Lawns for Lobsters program, the Commission focused on the issue of whether to adopt an ordinance regarding the use of pesticides and fertilizers on privately owned land.

Discussions at our meetings included the feasibility of implementing this ordinance which would require a town vote. An ordinance would also need participation by the code enforcement department to ensure that the ordinance was enforced. The commission contacted other towns with or contemplating a pesticide ordinance and learned that enforcement is a complex process. It is a three phase issue that includes homeowners, pesticide applicators, and town enforcement.

A commission member attended a meeting of a group of licensed pesticide applicators to discuss how to address a solution without adopting an ordinance. The State of Maine recommends an Integrated Pest Management (IPM) approach utilizing best management practices for the application of pesticides and fertilizers; however, the State has not moved this recommendation into a mandated regulation. The applicators at this meeting supported the IPM approach. An issue is that the applicators doing work in Kennebunkport may not come from this town, and it is not clear if those applicators support and follow the IPM approach. Documentation for IPM can be found at www.state.me.us/agriculture/pesticides/.

The Commission also learned that the Kennebunk Conservation Commission was considering a pesticide ordinance. A member of our commission attended a Kennebunk Conservation Commission meeting. Several members of the pesticide usage group mentioned above were also invited to the meeting. A productive

discussion was held regarding the IPM methodology, the advantages and disadvantages of an ordinance, and the issues regarding enforcement. Our commission is monitoring the efficacy of the recently implemented Ogunquit and South Portland pesticide ordinances. The City of Portland is currently pursuing a pesticide ordinance which we are also monitoring.

In addition to pesticide usage, our commission also supports best management practices for fertilizer usage. Fertilizer runoff is one of the leading causes of algae blooms in waters such as Cape Porpoise Harbor. Fertilizer runoff is further documented by Friends of Casco Bay at www.cascobay.org/bayscaping.

While other town pesticide and fertilizer ordinances are reviewed and monitored, we are continuing with the educational outreach programs for homeowners by focusing on lawn care methodology which is outlined on the Conservation Commission website. Additional information can be found at www.beyondpesticides.org.

Publicity for the solar EV charging station at the North Street Fire Station was addressed and a larger sign was approved and installed as noted in the photograph.

At the November polls, our commission maintained a table for information as well as to search for new members. It is encouraging to know that many citizens have expressed an interest in the Conservation Commission membership. This additional membership will help the Commission pursue and achieve more projects which will help to protect our town's natural resources.

GOVERNMENT WHARF COMMITTEE REPORT

With the passing of 2016, the Government Wharf Committee sadly saw the passing of two of its former members and longtime fishermen Byron Swett and Mike Austin. The past year will also be the last full year of the wharf looking as it does; as 2017 will bring a facelift to the wharf after the long-awaited revitalization project gets underway and moves forward starting December of 2017. In the meantime, the group of fishermen that call Government Wharf home will continue to maintain the building and wharf in the spring and as the year rolls on. The overhaul will leave us with an updated wharf, bait building, working floats, and an overall updated facility for years to come.

The Maine lobster industry continues to thrive with 2016 being a record-setting year statewide as well as here in Southern Maine for our fishermen of Government Wharf. The Maine lobster industry continues to grow leaving it as a major player in the Maine economy. The lobster industry continues to produce nearly one billion dollars into the Maine economy, making it vital to the fishermen and the State's survival.

The past year's weather was ideal with no major storms to speak of ravishing our local coast and leaving little gear on our local coastline. After a large cleanup in the spring of 2016, there is no scheduled cleanup for spring of 2017 at this time. However, if you have questions or concerns or see gear washed up on the coast or on your property, please feel free to contact the Kennebunk/Kennebunkport Harbormaster or the Maine Marine Resources to have proper action taken to get it removed.

In the spring, the fishermen of Government Wharf will do our spring maintenance and cleanup to ready the wharf for this year's upcoming season to maintain a safe working environment. Once again, we thank you all for your continued support of our local fishing fleet.

GROWTH PLANNING COMMITTEE REPORT

This past year, the Growth Planning Committee (GPC) continued to focus on developing strategies to improve housing opportunities in Kennebunkport in support of goals outlined in the Town's Comprehensive Plan. The objectives of our work were to increase the availability of housing within Kennebunkport that would be affordable to those that work or volunteer in our town and to help maintain the affordability of housing for those who currently live here. The rising value of homes in Kennebunkport has made these objectives very difficult.

In November 2016, the warrant article for the revision of Article 7.14 "Roomers" of the Land Use Ordinance was approved by the voters. The changes updated the original ordinance with important life safety aspects. It added a requirement that the residence be owner occupied during the rental period. The applicability of the ordinance was also opened to all zones in the Town without limitation to the year the home was built.

The objective of the revisions is to increase the availability of rooms within owner-occupied homes for rent to working adults, university students, visitors, or others while minimizing the impact on the local neighborhoods. Additionally, the ordinance change provides an opportunity for residents to utilize what may be their greatest asset to generate income to support their needs.

In September 2016, a charrette was held under the guidance of the Workforce Housing Coalition of the Greater Seacoast. This nonprofit organization provides technical assistance to towns in southern Maine and New Hampshire to generate ideas for the development of more affordable housing. For our charrette, they gathered professional volunteers, both locally and from away, who were skilled in land use planning, financial services, housing design, and other important areas to help our community envision what workforce housing opportunities may look like within our town.

The GPC believed that utilizing real properties within our town and applying our existing land use ordinances would be beneficial to learning what changes may be needed to achieve diverse housing opportunities. After a difficult start, the charrette did present some interesting ideas and challenges to overcome in order to achieve more affordable housing in Kennebunkport. The final report is due shortly and will be available for all interested residents to review.

These two projects identified an opportunity for our committee to improve our outreach to all of you. Although our meetings are open to the public, the meetings are also televised for viewing on the public access channel, and the Town's website provides information on the Committee. It is apparent that many townspeople are

not aware of our work. This unfortunately led to very strong concerns about the motives behind the changes to the “Roomers” Ordinance and to the purpose of the charrette.

The Committee recently discussed this topic and will work this year to improve our outreach to all the townspeople. I encourage each of you to spend one or more evenings with us, either in person or via television, and share your thoughts on our work. If at home, please use the link on our webpage to ask us a question that is important to you.

I would like to thank each of the members of the Growth Planning Committee for their service this past year. We did not always agree on every point, but the discussion was always respectful and the results were always better for the effort. I would like to thank Werner Gilliam for his continued leadership in supporting our committee’s work and keeping us always marching forward.

In closing, I would like to take a moment to acknowledge the passing of GPC member George Geyerhahn, who I unfortunately only knew for a short time. He was a gentleman with a kind and thoughtful spirit.

KENNEBUNK RIVER COMMITTEE REPORT

The Kennebunk River Committee continues to monitor activities relative to safety and the condition of the Kennebunk River in efforts to retain its viability and importance to the Kennebunks.

The river dredging at the Arundel Yacht Club, Yachtsman, and Government Wharf was completed over the 2015–2016 winter. Due to severe weather/sea conditions over the 2014–2015 winter, the dredging was delayed until late fall of 2015. Dredging was also completed at the new marina, DiMillo’s Marina (Old Reid’s Marina). The Committee approved a dock reconfiguration at DiMillo’s Marina.

The *Spirit of Massachusetts* schooner was officially classified by the United States Coast Guard as a C-ROD (Craft Routinely Operated Dockside). The *Spirit* officially opened as a floating restaurant in the spring of 2016.

After receiving detailed information regarding the proposed Lanigan Bridge construction and under clearance during flood conditions and MHHW (Mean Higher High Water), the Committee concluded the following and sent this letter to both towns and MaineDOT:

With the ever-increasing traffic on the river (power vessels, sail vessels, jet skis, paddleboarders, kayaks, and canoes), the Kennebunk River Committee’s main objective is for safe, unimpeded passage on the river and has safety concerns with the proposed project:

- 1) The proposed under clearance of the bridge has the same inadequate clearance as the existing bridge. At normal high tides Mean High Water (MHW), there is only a 2 ft. under clearance which creates a dangerous situation for nonmotorized vessels trying to navigate up or down the river. With a changing tide during MHW conditions, nonmotorized vessels have no means of stopping and can be lodged under the bridge and create a rescue situation. There have been reports of rescues at or under the bridge during tide cycles. At prime high tides (MHHW) and flood conditions, navigating under the bridge is impossible. This inadequate under clearance will prevent rescues on the river during MHW and flood conditions.
- 2) The proposed under clearance of the bridge has the same inadequate clearance as the existing bridge. At prime high tides (MHHW) and flood conditions, the bottom of the bridge is under water. It is likely these conditions will happen more often in the next 100 years. Building a “100-year bridge” with it’s under structure exposed to rushing water and collisions of surface debris is not the preferred approach on most MDOT projects. An increase of 2 ft. of under clearance would help to insure the longevity of this structure.

The Committee recommended the following:

- 1) A minimum under clearance of 4 ft. at MHHW. This allows safe, full access at MHHW for rescue vessels, kayaks, canoes, and paddleboards and keeps the entire river (north and south of the bridge) open for continued use during most tide phases.
- 2) The Committee believes the entire river open during most tide cycles will help alleviate the ever-increasing vessel congestion on the river below (south of) the bridge. This would be a great opportunity for existing businesses on the river to encourage patrons to use nonmotorized vessels above (north of) the bridge and away from the designated and federal channels south of the bridge.
- 3) Both towns reconsider the bridge construction and follow the Comprehensive Plans.

Although the Committee's concerns and recommendations were heard, the under clearance cannot be changed. MaineDOT sent the River Committee a letter stating in order to raise the under clearance, the cost of the bridge would be greatly increased, the angle of the arch would not meet ADA regulations, and some businesses entrances could be impacted.

The Committee sent another letter to both towns and Leanne Timberlake at Maine DOT strongly recommending that handrails are added to the bridge on both north and south faces of the new bridge. These handrails will give nonmotorized vessels a way to gain control and save themselves from a dangerous situation especially during flood conditions and MHHW.

The Committee received a final letter from Leanne Timberlake stating that Maine DOT would install handrails as recommended and would add warning signage on the faces of the bridge.

The Committee would like to recognize the continued support and cooperation from both Kennebunk and Kennebunkport.

LIGHTING COMMITTEE REPORT

We see our mission as preserving the night sky for residents, visitors, and future generations.

The old incandescent platter lights create a unique ambience to our area. Central Maine Power has started to replace these old platter lights with lower wattage, but brighter, high pressure sodium, light fixtures. These fixtures appear as a stronger yellow color. These new lights are two times brighter than the current 105 watt incandescent fixtures. The Lighting Committee, in collaboration with the Town Manager and Director of Public Works, are looking into the Town owning the fixtures instead of leasing them from CMP as has been the previous practice. The objective for the Town is to reduce the yearly rental costs of the street lighting in town.

During 2016, the Committee worked on several projects:

- Provided advice on illumination for the new Mathew Lanigan Bridge.
- CMP has started to replace the old incandescent platter street lights with LED lamps. These lamps provide some additional light and match the color of the existing incandescent lamps, using a lot less energy than the current 105 watts (under 20 watts for the LED replacement lamps).
- Collaborated with Mike Claus, director of public works, and started a detailed inventory of all the street lights that we lease from CMP. Driving around town, this survey to date has discovered missing lights, pole mounted lights on private property, and broken fixtures which we are working to resolve.

Projects that complied with our ordinance:

- EBS Cove
- Government Wharf
- Consolidated School

Ongoing issues for the Committee are the existing ordinance's enforcement and the interfacing with the requirements of the Planning Board's criteria for projects in town.

There is a new, high pressure sodium, street light at the intersections of Wildes District Road, Main Street, and the Ward Road.

Please read our ordinance available on the Town website and evaluate your own exterior lighting for compliance. Also, check out the "Public Works Department" for two menu item tabs referring to the Town street lights:

1. Street Light Repair (A form to fill out if a lamp is burned out.).
2. Street Lights in Kennebunkport (An old list dated 11-12-2014. It is the Committee's objective to update this list in 2017.).

If there are any questions, please give our Committee a call for assistance.

Anyone interested in our night environment in town is encouraged to join the Lighting Committee.

PARSONS WAY COMMITTEE REPORT

The mission of the Parsons Way Committee is to uphold and insure the intent of the donor, Henry Parsons, such that the parcel “. . . should ever be kept free for its scenic effect and beauty and for the enjoyment of the townspeople and their guests.”

In 1944 Henry Parsons donated the Parsons Way to the town of Kennebunkport. As noted in the donor's intent section of the deed, *the parcel was to be kept free from any structures (except for drainage) or buildings. It was never to be used for any commercial or building purpose, nor was it to be used as parking for automobiles. The document goes on to say that the parcel “. . . shall forever be kept open and clear for the unobstructed view of the ocean.”*

In order to keep the views open, clear, and unobstructed, each spring Parsons Way, its pathways, and bench areas are selectively trimmed back to the allowable 3 foot height. This annual maintenance is subcontracted. However, throughout the season, the Town highway department is helpful in providing regular, routine care and upkeep. This spring, Parsons Way will have some spot treatments applied onto patches of poison ivy by a licensed professional. The same professional will also begin a bittersweet eradication protocol.

Our primary concern continues to be the maintenance and beautification of Parsons Way so that it may be enjoyed by the townspeople, their guests, and visitors of Kennebunkport. We also administer the implementation and maintenance of the bench memorials. At this time, there is a moratorium on any new bench memorial installations.

Please contact the town offices or Louise Spang at louisespang@spangbuilders.com if you are interested in a bench memorial.

Parsons Way Committee Members

Louise Spang, Chair

Gordon Ayer

Barbara Barwise

PLANNING BOARD REPORT

The Planning Board had another active and “interesting” year in 2016. The Board saw a relatively small number of residential applications, but worked on several large nonresidential projects and four new subdivisions, two of which were given final approval in 2016. If and when completed, the four subdivisions will add 45 new dwelling units to Kennebunkport’s housing stock. The nonresidential projects included additions to the Police Station, Consolidated School, and Graves Library. The Board also imposed new restrictions on Hidden Pond Resort after that entity was found to have violated terms of its original approval. Board members also participated in discussions with the Growth Planning Committee on revisions to the Roomer Ordinance.

The applications before the Board in 2016 included the following:

PURPOSE OF APPLICATION	NUMBER OF CASES	
	2015	2016
Residential building renovation, rebuilding, or landscaping	7	4
Nonresidential construction, additions, or change of use	7	7
Piers, ramps, wharves, and walkways	2	4
Revision or reapproval of previously approved subdivision or site plan approvals	2	5
Bank stabilization/dredging	3	1
Golf course improvements	1	0
New subdivisions	2	4

Board members were all active contributors to the Board’s work during the year. The Board bade farewell to three veteran members: Greg Reid, Helen Conaty, and John Hathaway, all of whom served the Town well in their many years of service. We welcomed three new members to the Board: Scott Mahoney, Russ Grady, and Nina Perlmutter. And, as always, we especially thank Lisa Harmon in the Code Enforcement Office and Trish Saunders (minutes) for their truly excellent support during the year.

David Kling, Chair

SEWER ADVISORY COMMITTEE REPORT

The Kennebunkport Sewer Advisory Committee held one meeting in 2016 (on March 18). Prior to the Committee meeting, members were provided a copy of the wastewater department's proposed 2016-2017 budget documents to review. The proposed 2016-2017 budget included the following wastewater/sewer infrastructure and equipment needs and associated capital equipment funding requirements:

- Replacement of the plant effluent chlorine analyzer.
- Continue with grinder pump replacements.
- Replace the wastewater department's 1-ton pickup truck.

Following discussion and clarification of the proposed budget, the Committee unanimously voted to accept the budget (including a 3.8% increase in the sewer use fee) and submit it to the Board of Selectmen for consideration and approval.

The Committee also unanimously voted in favor of Stephen Couture to fill the vacant Committee Chair position.

The Board of Selectmen reappointed the following Sewer Advisory Committee members for 2016-2017 terms: Bob Convery, Stephen Couture, Richard Johnson, Joseph Martin Mead.

Stephen Couture, Chair

SHADE TREE COMMITTEE REPORT

The Shade Tree Committee is looking forward to our 40th year as a Tree City. From our initial work to protect the Town's elm tree population from Dutch elm disease (presently there are almost 100 living elms in town) to our expanded work to identify new diseases and threats, plant resistant varieties, and keep our beautiful trees pruned, the Committee educates students as well as works with homeowners to help maintain Kennebunkport as a most beautiful spot in Southern Maine. We work with the town, residents and businesses to maintain and plant trees that positively affect the beauty and ecology of Kennebunkport. We also keeps watch for trees in disease stages as well as informing people regarding benefits and attractiveness of town trees. Town trees and those with which we have easements with residents are tagged and recorded in the Town GIS database.

During 2016, there was no significant ice or storm damage to the trees maintained by the Town. Dutch elm disease outbreaks were also minimal and only one small elm tree had to be removed. During sidewalk construction on North Street, several locust trees were deemed to be in such poor shape they were taken down prior to finishing the North Street construction. This work was done by the Town Arborist, Bob Palmer.

A GIS map of all tagged trees has been developed and is maintained on the Town's database. Access can be found at kennebunkportme.maps.arcgis.com. The tagged trees are labeled by tag number and common name when available.

Some of the trees maintained by the Shade Tree Committee are on private property, or a combination of town and private property. The Tree Warden and Committee members have made significant efforts to obtain easements providing written permission for the Town to care for and maintain these tagged trees on a predominantly shared cost basis. A total of 29 easements have been signed with individual homeowners, and the deeds are recorded at the York County Registry of Deeds. Twelve additional easements are pending.

The annual Arbor Week celebration took place at Consolidated School on May 20. Committee members; new Tree Warden, Patrick Briggs; and District Forester, Oliver Markewicz, spoke with the students about the work of the Shade Tree Committee and the significance of Arbor Day. All the students received a sapling to take home and plant. The students also created artwork that was prominently displayed throughout the school, and three students read their tree poetry to the Assembly.

Three trees, of which two were dedicated to retired teachers, Peter and Judy Hoff, were removed during construction at Consolidated School. Tree Warden Patrick Briggs oversaw a tree planting ceremony to replace those trees on November 10 with the 5th grade students. The Committee provided three elm trees, and the students were shown how to plant and care for the trees during the rededication ceremony.

The Committee created a trifold brochure about the Kennebunkport Shade Tree Committee. The brochure and other information about the Committee's work and town trees were shared with the community at an information table at the polling station during election day in November.

This past summer, the Committee began working with distinguished photographer, Robert Dennis, to create a walking tour of the trees on Langsford Road in Cape Porpoise. We hope to have this project completed by Spring.

SHELLFISH CONSERVATION COMMITTEE REPORT

License Sales

Recreational

Resident	75
Nonresident	8

Commercial

Resident	1
Nonresident	0

This was my first year as Shellfish Warden for the Town of Kennebunkport. I spent a lot of time familiarizing myself with the digging areas within Town.

There are currently five members on the Shellfish Conservation Committee which leaves three available positions. The Ordinance requires a minimum of five and a maximum of eight.

During my patrol throughout the season, I checked 120 harvesters. They were all in compliance of the allowable limits.

I look forward to the beginning of another season.

Everett Leach, Shellfish Warden

ZONING BOARD OF APPEALS REPORT

The Zoning Board of Appeals (ZBA) is comprised of up to seven residents of the Town who serve staggered three-year terms. The Board considers applications for variances, conditional uses, and administrative appeals as set out in the Town's Land Use Ordinance (LUO) and as governed by Maine law.

Variances may be granted to vary the LUO's requirements for lot coverage, lot size, lot-line setbacks, lot frontage, lot width, and height of structure, and only when an applicant can meet the standard of undue hardship, or in certain circumstances, practical difficulty or disability. In 2016, there were no applications for a variance submitted to the Board.

Conditional uses vary from zone to zone and are set out in the Town's LUO. In 2016, the Board granted one application for a conditional use for a Home Occupation.

Administrative appeals arise when a party wishes to appeal an action or decision of the code enforcement office. In 2016, there were no appeals to the Board of any decision rendered or action taken by the code enforcement office—once again testament to that office’s excellent work.

The current members of the ZBA are: Paul W. Cadigan, Chair; Gordon C. Ayer; Wayne Fessenden; James Fitzgerald, Jr.; Karen Schlegel; Jean Conaty; and April Dufoe.

Paul W. Cadigan, Chair

ARUNDEL CEMETERY CORPORATION

As in prior years, we continue to address improvements to the cemetery; more specifically in the last couple of years, the development of our new Section B on Walkers Lane and addressing the status of our trees. Our Superintendent, Carl Walton, has spent much of last year working on the new Section B; it is hoped that it will be ready in the spring of 2017 to begin selling lots.

After many discussions regarding tree management, the Board established a five-year plan for our very old blue spruce and white pine trees, many of which have large rotted branches that are in danger of falling onto gravestones during storms. Five trees per year for five years will be taken down and replaced with disease resistant trees such as Princeton elms.

The clerk’s office recorded deeds for 6 new lot sales for a total of 12 new graves, all in Section 28, and 4 columbarium niches.

We had a few changes on our Board; Ellsworth Bridges Jr., who was a longtime member of this Board for many years, passed away in January. Elected to the Board in January were Susan Jackson and Keith Lewis.

The Board continues to be very pleased with the performance and services provided by Carl Walton. His extensive cemetery management experience and his affable nature are a real asset to the cemetery and its patrons, and we are delighted to be working with him.

KENNEBUNK, KENNEBUNKPORT AND WELLS WATER DISTRICT REPORT

The Kennebunk, Kennebunkport, and Wells Water District is a quasi-municipal public water utility that was established in 1921 by an act of the Maine State Legislature. The District serves an area that encompasses the Towns of Kennebunk, Kennebunkport, Wells, Ogunquit, Arundel, and small portions of Biddeford and York. The area includes a population which varies seasonally from about 30,000 to over 100,000. It is directed by a four-member Board of Trustees, one elected from each of the Towns of Kennebunk, Kennebunkport, Wells and Ogunquit.

2016 was a very healthy, record-breaking year for the District. Compared with 2015, which was also a record-breaking year, 2016 saw a 2.7% increase in water production and a 4.6% increase in total revenues. From a financial perspective, the District received a record \$7.18 million in total revenues, exceeding 2015 revenues by \$273,000 and exceeding its anticipated 2016 budget by \$470,000. All of this contributed to a projected (unaudited) net income for 2016 of approximately \$500,000, as compared to a net income of \$320,000 in 2015. Such net income fluctuations from year to year are normal, as certain periodic maintenance items such as water storage tank painting (which occurred in 2015) are charged off in the year they occur. Overall, the primary drivers for the record water production and revenues are related to drier than average weather and long-term customer growth, as follows.

Precipitation during 2016, as measured at our Branch Brook Filtration Plant, was the second lowest since the 2003 drought (the lowest was in 2015). This year's dry weather, combined with a relatively stable local economy, resulted in record annual water production of 1.125 billion gallons, edging out the prior record of 1.095 billion gallons set in 2015. This compares to 1.053 billion gallons in 2014 and 1.073 billion gallons for 2013. The District's recently-developed high quality groundwater sources were once again instrumental in helping the District meet customer water demands without the need for purchasing additional water from neighboring utilities. These groundwater sources produced 531 million gallons (47%) of all the District's water production for 2016.

From a customer growth perspective, it appears the economy has returned to pre-recession levels, with 166 customers added in 2016. This compares with 143 in 2015 and 138 in 2014, resulting in a customer growth rate of about 1.2%. The District's customer base now stands at 13,661.

This was the sixth year in a row that the District has been successful in being awarded a low-interest SRF (State Revolving Loan Fund) financing package. Since 2008, through SRF financing, the District has installed \$8.4 million of infrastructure to date at a total bonded cost of \$8.9 million, at an average bond interest rate of only 0.86%.

During 2016, the District once again qualified for renewal of the Maine Department of Labor's SHAPE award (Safety and Health Award for Public Employers). This award is given to a select few of Maine's public employers that provide a safe workplace for its employees in an exemplary manner. The award is only given after an exhaustive field inspection and review of policies, programs, training, work practices, and work history. On a related note, the District has achieved the lowest ever "experience modification factor" that its workmen's compensation insurance

carrier has ever seen for a water utility. This factor, which measures the actual workmen's compensation claim history of an employer, directly affects the insurance premium paid by that employer. For the District, its modification factor of 0.61 will result in its 2017 workmen's compensation insurance premium being reduced to 61% of the "standard" amount. Being that the District performs much more construction-related work than a typical water utility, this low factor is a very significant statistic and indicative of the District's commitment to employee safety.

With all of the recent discussion relating to the poor condition of America's infrastructure, the District is pleased to report that for the past 30-plus years, it has averaged replacing about 0.9% of its distribution system per year. This falls squarely within the desired water industry "gold standard" of 1% per year, based upon an expected 100-year usable life for water mains. Very few other water utilities have maintained such an aggressive (yet appropriate) water main replacement schedule. The District has accomplished this task while keeping its water rates below that of the average of Maine's water utilities. On a related note, despite maintaining this aggressive infrastructure replacement program, the District has a relatively low cost of debt service, which currently stands at 12.4% of revenues. In other words, only about 1/8 (one eighth) of each revenue dollar goes toward the payment on debt service (principal and interest). From a water utility perspective, this is extremely low, as water utilities are very capital intensive and usually carry a disproportionately large amount of debt as compared to other businesses.

The following is a partial list of distribution projects funded and installed by District personnel during 2016. These projects typically relate to our goal of coordination with State and Town roadway projects, optimizing water quality, enhancing fire suppression capabilities and improving system reliability by replacing outdated and substandard facilities with an eye toward accommodating anticipated growth.

- Mile Stretch Road, Biddeford: Replaced 991 feet of old 10-inch cast iron (CI) main with 12-inch PVC main. (In conjunction with the City of Biddeford road rebuilding and drainage project, and for system reliability.)
- Ocean Avenue, Biddeford: Replaced 369 feet of old 6-inch cast iron (CI) main with 8-inch PVC main. (In conjunction with a City of Biddeford road rebuilding and drainage project, and for system reliability.)
- Ocean Avenue, Kennebunkport: Replaced 532 feet of old 8-inch CI main with 12-inch ductile iron (DI) main. (In conjunction with a Town of Kennebunkport drainage and repaving project, and for system reliability.)
- Beach Avenue, Kennebunk: Replaced 1,137 feet of old 6-inch CI main with 12-inch PVC main. (For water quality, quantity, and system reliability.)
- Grove Street, Kennebunk: Replaced 1,174 feet of old 4-inch and 6-inch CI main with 8-inch PVC main and 2-inch polyethylene (PE) main. (In conjunction with a Kennebunk Sewer District replacement project and for water quality, quantity, and system reliability.)

- Shore Road, Ogunquit: Replaced 1,230 feet of old 10-inch CI main with 12-inch DI main. (In conjunction with an Ogunquit Sewer District project and for system reliability).
- Doane's Wharf Lane, Kennebunk: Replaced 325 feet of obsolete 6-inch cement main with 8-inch PVC main and 2-inch polyethylene (PE) main. (Installed by Kennebunk Sewer District's contractor, in conjunction with a Sewer District replacement project.)
- Founder's Drive and Jefferson Way, Arundel: Oversized 350 feet of developer-installed main to 16-inch DI main. (To facilitate the connection to a future water storage facility on an adjacent District-owned lot.)

In addition to the above projects, individuals and developers funded several water main extensions totaling over 14,000 feet in length, as compared to approximately 6,000 feet installed in 2015.

Drinking water quality remains a top priority. We are pleased to report that in addition to making significant water quality improvements with our unique blending of groundwater and surface water, all State and Federal water quality standards were met during 2016. By maintaining a dedicated, well-trained staff and continually upgrading our process equipment and control systems, we continually assure the highest degree of reliability in the quality of drinking water for our customers.

On November 9, 2016, the Water District ceased adding fluoride to its water supply. This was the result of a successful customer-driven and District-supported local referendum to end the practice. The District is the largest water utility in the region to take a stand against adding fluoride to its customers' drinking water and applauds the decisive (66% to 34%) outcome of the fluoride referendum.

District customers and all other interested parties are welcome to contact us at our business office at 92 Main Street in Kennebunk or visit our website at www.kkw.org, like us on Facebook ([facebook.com/kkwwaterdist](https://www.facebook.com/kkwwaterdist)), and follow us on Twitter ([@kkwwaterdist](https://twitter.com/kkwwaterdist)). Electronic bill notifications, reminders, as well as online payment options are all available and tailored to suit our customers' needs. Current and past issues of the District's popular semi-annual newsletter *What's on Tap* are also on our website. As always, we welcome your input, as the District's mission is *to provide the best quality of water and customer service at the lowest reasonable cost.*

The Trustees of the District appreciate the continuing effort and dedication of their employees, as well as the support and cooperation of their customers, area contractors, and State and local municipal officials.

KENNEBUNKPORT CONSERVATION TRUST REPORT

With the great help of our membership base and a dedicated corps of volunteers, 2016 proved to be another year of many accomplishments for the Kennebunkport Conservation Trust. We were delighted to receive the gift of the 47 acre “Cluff Preserve.” The property was donated by Wilbur C. Cluff, Sr. and his children. It consists of a beautiful 15 acre field and 32 acres of forested upland off the Sinnott Road in Arundel. Two sides of the field are bordered by Goff’s Mill Brook as it flows gently to the Kennebunk River. “Wib,” the owner of his own successful excavation business, said before he passed away, “I’ve spent my whole life tearing up the land. I’d like to leave one piece behind that’s beautiful.” That, he and his family have done, and we are all grateful!

Bud Danis and his team of volunteer Trail Stewards were busy all year. Not only did they maintain existing trails, they built 13 bridges (270 feet) and 24 catwalks (150 feet) to help improve the trail system. A number of those walkways were added to the new Rotary Loop and Beachwood Trails, as well as on the path that completed the greenway from the Emmons Preserve headquarters to Cape Porpoise. Attractive signs and trail markers were installed along each route, and maps were created to help guide hikers. The whole system has now reached 19.4 miles of trails, which is being enjoyed by many members of our community and visitors each day of the year. In addition, the Kennebunk High School Alternative Education students completed the “Story Book Trail” at the Emmons Preserve. The kids worked hard, used their imagination, and came up with a design that younger children can enjoy, as they read the different pages from a story that are posted on signs along the way. Discussions with Kennebunkport’s emergency services were also held to make sure that the trail system is as safe as possible for all who use it. Thanks Trail Stewards for an exceptional year. Your hard work brings great pleasure to thousands of people each year.

Our volunteers were active around the harbor too. Mike Mackiewicz and the Island Stewards monitored our islands, welcoming campers and passing along appropriate information regarding best practices on these environmentally sensitive areas. A new dock location was found for the steward’s boat which was very much appreciated. Campsites were looked after and cleaned. A healthy relationship with the Maine Island Trail Association was maintained, and an island informational map was created and installed overlooking the harbor by Cape Porpoise pier. Perhaps of most concern this year was the return of the Brown Tail moth. The infestation ate away the vegetation on the harbor side of Vaughn’s Island. People were asked to stay away from that side of the island, and the stewards dispersed information and posted signs to that effect. What will happen in 2017 regarding the moths is yet to be known, but the situation will be closely followed. Our thanks go out to all those who helped keep are harbor safe and beautiful!

Scott and Karen Dombrowski, our Goat Island lighthouse keepers, reported another busy and successful season. An estimated 1,300 guests made it to the island over the course of the year by boat, kayak, or canoe, and the couple welcomed them all. New

informational signs were erected on the island, and monitors installed in the walkway were well received. Work parties were conducted on a regular basis and many repairs and a good deal of camaraderie and fellowship was the result. Interior trim was installed and painted, the ways were repaired, as were sills and trim on the boathouse. The gutter water collection system was rebuilt and a good deal of painting was done. Child and adult “Discovery Days” were hosted, and at the end of the year, the “Flying Santa” landed and visited with children on the island, which was a real treat. Thanks to all who made these things possible.

The Grist Mill project, which was approved by the Planning Board in 2015, remained in court for the year, but many informational signs were created and work was started on this exciting opportunity.

Mark and Gail Roller and Arnie Amoroso worked each week on the lawns and gardens of the Emmons Preserve and the grounds never looked better. The floors in Steve Emmons’ house were repaired and strengthened. In the process, two early 18th century Irish shillings were found in the soil beneath the 1790s house. That was an added bonus, as we thought of how many generations have enjoyed the property. What’s more, a new bird feeding station was added in the same area that Steve Emmons used to enjoy watching wildlife each day. The Trust has dedicated that space to David and Ellen Doubleday in thanks for their shared dedication with Steve for the study and feeding of our fine feathered friends.

Work continued this year toward removing invasive plant species from Goose Rocks Beach and replacing them with native plants. The same attention was also given to Halcyon Way and other Trust properties.

With plantings by Helene Lewand of Blackrock Farm, and under the care of Elizabeth Spahr, Ganny’s Garden on the River Green provided a lovely setting for the thousands of people that visited it.

Under the direction of Leia Lowery, Trust in Our Children continued to grow in both popularity and accomplishments in 2016. In fact, Leia was once again asked to speak at the National Land Trust Rally and other regional conferences to explain the program to those seeking to start similar learning experiences. By year’s end, 1,254 students in RSU-21 were reached by the program. For the first year ever, all six schools in the district were served. Leia saw over 28 school events and 30 community events. She was helped by six interns from either Kennebunk High School or the University of New England, and by 360 volunteer hours for field trips and the first Trust summer camps. And believe it or not, this was all done while Leia was working part-time. We are happy to report that in the new year’s budget, she was moved to full-time, and she has a number of new ideas in store.

Lisa Linehan was equally busy overseeing the office and Trust activities. The Trust headquarters was the scene of much activity, being used for 145 total functions, many of them related to use by local families. Thirty-five uses were for local nonprofits who are doing good work for the people of our community. The Trust’s policy is to assist

such organizations by offering our building and grounds free of charge for their activities. Forty-one of these were Trust functions of one sort or another.

With the membership support of over 750 households, we were able to meet the annual budget. Our popular “Thought and Photo of the Week” and “Looking Back” photo and quote were enjoyed by thousands each week, which included our over 1,200 household e-mails and 2,371 followers on Facebook.

During the year, discussions were held regarding joining a forest management collaboration with several other southern Maine land trusts. A number of other discussions and a good deal of planning also took place regarding the creation of procedures to deal with succession planning.

The Trust, once again, had a full calendar of enjoyable events throughout the year. It started out with 12th Night. The theme revolved around everyone’s love of the beach, and after a humorous presentation to that effect, all danced to a variety of well-known beach music from the past performed by The Guv’nors band. Paint nights were held in January and February. And, our Trailfest and Summerfest evolved into a Four Season Trail Race format that brought out hundreds of runners and their families. We want to offer our sincerest thanks to the sponsors of these gatherings: Kennebunk Savings Bank, Hazelwood Handyman, Weirs Motor Sales, Re/Max Realty One, Biddeford Savings Bank, Ameriprise Financial and Kittery Trading Post. These days were fun for all, and we encourage you to join in. The 2017 Summerfest will be held on August 20 and Trailfest October 8. All funds raised benefit our educational programming. New this year was an online auction which, with the help of many local individuals and businesses, was a great success. The Trust ended the year with Trust in Prelude which was also well received. The alternative education students made Christmas ornaments with children, hot chocolate, and other refreshments were served, and many wonderful crafts were available to happy shoppers.

During the course of the year, contributions were received in loving memory of: Robert Chase, Jr., Jim Steele, Ellen Doubleday, Donna M. Walsh, Peter Sargent, Rheta Chenard, Steve Kelly, Jack Kingston, Yvonne Archer, Steve Palermo, Frances Adelaide Collier, Doris Harrington, Philip Brooks Eaton, Elaine Wraga, Catherine Pargellis Bowe, Judith Gilman, Henry and Liz Griffin, Ellen Tilney, Debby Kinney, and Louisa O’Brien Guard. Donations were also given in honor of: Leigh Bloom and Michele Sakaguchi, John and Ro Bloom, Tick and Doris Warren, Paula Kelson and Joan Heartz, Kathy Cmaylo’s retirement, Barbara Bush’s birthday, Richard and Reenie Perlmutter’s anniversary, the wedding of Jeanne Howarth and Terry Moulton, Bridget and Kevin Broydrick’s wedding, Dr. Roger Peel, Scott and Karen Dombrowski, Mr. and Mrs. Gabe Choquette, Mr. and Mrs. Walter Stumpf, Mr. and Mrs. John Woolley, Tony and Judy King, Brett Lindquist and family, Wayne and Paulette Burbank, and Nicholas and Sam Costello.

The Trust accomplishes all that it does for two reasons, its members and its volunteers. Our members provide the funding and our volunteers provide the energy and drive that allows great things to happen for the benefit of all who live in or visit

Kennebunkport. The Trust is blessed by individuals who continue to give tirelessly of themselves all year long and in a wide variety of ways. By way of thanks, Stars of Merit were awarded to: Bud Danis, David Jourdan, Doug Butler, Pam Morgan, Charlie Wright, Brandon Gillard, Mark Roller, Gail Roller, and Norine Burns. The 2016 “Volunteer of the Year” awards went to Carol Krauter, Russ Grady, and Karl Pepin. Carol works each week on our bookkeeping, making sure that everything is entered and in order and that all bills are paid. She has been a wonderful and welcome addition to the office. It’s fair to say that Russ and Karl do it all, working on Trust vehicles, trail and harbor work, technology, airplane flights, drone photography; there seems to be little that they can’t do and their numbers are on speed dial on our phones. Our sincere thanks to all three for everything!

The coveted, light hearted, “Bobble Head Award” was presented to Mark Roller and Arnie Amoroso for their dedication to KCT. The award helps represent the fun that is had in volunteering. In addition to weekly lawn care and Emmons Preserve work, both work diligently on Board duties and responsibilities. This was our way of saying “thanks.” Larry McKay, who served on the Board of Directors for more than two decades, was also recognized for his overseeing of our insurance policies and the River Green. And, trail stewards Kate Adams and Bob Collins received their official hand saws for great trail work. So many others are also deserving of our thanks. We are grateful for all of you! You are showing by your actions what a community should be and can be. That’s what the Trust is all about. It’s only by all of us working together in a common cause in this special place that so many accomplishments can happen. We encourage all to join us in our efforts. We would welcome your membership and support! Together we can make a difference. Together we can do great things.

Tom Bradbury, Executive Director

**KENNEBUNKPORT EMERGENCY MEDICAL SERVICES, INC.
(KEMS)**

Kennebunkport Emergency Medical Services is a private, nonprofit, volunteer agency that provides emergency medical care to the Town of Kennebunkport. In addition to providing medical care and response to our community, we also participate in mutual aid agreements with the Towns of Arundel, Biddeford, Kennebunk, and Wells. KEMS is stationed at the Cape Porpoise Fire Station, where space is leased from the Atlantic Volunteer Engine Company for the ambulance and crew quarters.

KEMS began in 1979 with a small group of volunteers and an old Cadillac ambulance donated to the Town by the Bibber family. Over the years, KEMS has seen its fair share of growth and progression with the implementation of a sustained per-diem paramedic program that works alongside a dedicated group of volunteer EMS providers and fire drivers. These improvements to our system, augmented by a vast array of high quality equipment allow KEMS to provide the highest level of patient care possible through the skilled hands of our core group of highly trained volunteer EMT's and paramedic staff. As a standard, we continue to dedicate ourselves to serving the residents and visitors of our community with compassion and professionalism.

KEMS responded to 398 ambulance calls during 2016. In addition to emergency medical requests, 11 of our calls for service were standby for fire incidents and 14 more were assists to police department requests. Our goal is and will continue to be to treat each call and every patient with the highest level of professionalism, compassion, and competent emergency medical care possible.

We provide emergency medical responses utilizing a 68-member staff. Our staff is a diverse mixture of volunteer and per diem members, all of which are highly trained and dedicated to serving the citizens and visitors of Kennebunkport. Our staff includes 36 volunteer EMT/AEMT's and drivers, 11 probationary members, and 5 fire drivers. Our volunteer staff is complimented by 14 per diem paramedics, which are staffed on shift 24 hours a day, 365 days per year. This system allows us to provide advanced life support level care on a regular basis, which includes advanced

life-saving medical care, advanced medical assessment, defibrillation, IV/IO access, medication administration, and other advanced procedures.

Our volunteers are the very heartbeat of this organization, and we are thankful for each and every one. Since our inception, their dedication has remained steadfast, allowing our organization to continue to thrive and progress. Our dynamic cadres of volunteer staff are your friends, neighbors, and coworkers. Driven by passion and an unshakeable willingness to serve their fellow citizens, these exceptional people take time out of their lives on a daily basis to help others in our community. Our amazing group of volunteers covered a total of 1,815 shifts for a total of 14,807.30 hours of coverage to the Town throughout the year. Paramedic staffing covered 1,032 shifts for a total of 6,114.81 hours in 2016. Total coverage provided by KEMS for the Town are 2,847 shifts and 20,922.11 hours worked. Data for these figures was provided by our online software program www.whentohelp.com. These figures do not include all the other various training courses attended throughout the year.

As the dedicated EMS provider for the Town of Kennebunkport, we would also like to recognize the hard work and dedication of the Kennebunkport Fire Department, Kennebunkport Police Department and Emergency Dispatch Staff. These collective groups efforts, combined with KEMS are the backbone of Kennebunkport's emergency response team. They truly are professionals and make each call for service a coordinated and successful event as we all strive to provide the highest level of service possible to those we are sworn to serve.

KEMS continues to offer CPR programs to benefit the community on a regular basis reflecting our Heart Safe community initiative. This has been a collaborative effort between KEMS and Kennebunkport Public Health. We will continue to work together in making Kennebunkport a healthier and safer community through this initiative.

If you are aware of anybody that is interested in volunteering, please contact our KEMS business office at 207-967-9704 or email us at kemsal@roadrunner.com. Our fees for service and the generous donations from the people of Kennebunkport cover most of KEMS operating expenses. However, in 2017 we are again requesting a portion of our funding from the Town to help us meet our annual operating budget. This budget allows us to supplement our group of highly-trained volunteers with paid Advanced Life Support providers (Paramedics) on a full-time basis. These paramedics work as full-time employees in surrounding communities and are employed by KEMS on a per diem basis. With the rising cost of emergency services and healthcare costs, we are fortunate to be able to employ such a diverse group of dedicated EMS professionals who care about the citizens and visitors to the Town of Kennebunkport.

KEMS has undergone some changes to its Operational Administrative Staff, Membership, and Per-Diem Paramedics that took effect on January 1, 2017. This staff is a mixture of new and old employees, all dedicated to serving both the KEMS organization and the citizens of Kennebunkport. At this time, I would like to take this opportunity to introduce you to our amazing EMS staff.

CAPE PORPOISE LIBRARY REPORT

Library Hours and Services
Tuesday, Thursday 1:00 – 4:00 p.m.
Friday, Saturday 9 a.m. – noon
Computer, Copier, Fax
24-Hr. Wireless Accessibility
(207) 967-5668
cplibrary@cape-porpoise.lib.me.us

In 2016, the Cape Porpoise Library bid farewell to Sue Perkins who retired as library director after nearly two decades. She continues to provide the library with suggested book selections and sage advice. She is also on the volunteer list and if you are lucky, you may run into her filling in at the desk.

To further enhance our patrons' experience, we have updated our card catalog and have begun the search for an automated, user-friendly, system. Our hope is that these efforts will facilitate book searches and increase the accuracy of our book inventory. The children and young adult section continues to be updated with new materials. Increasing the number of children's visits is a goal for the library. For the adults, we have increased our inventory of audio books, DVDs and large print books. We have the latest books on the best-seller lists and welcome patrons' suggestions for purchase. I will also deliver books to home-bound patrons.

Our Annual Book Sale held last July was very successful. We appreciate the book donations and the time and effort of the many volunteers who helped with this major yearly fundraiser. The support of our community and patrons is what makes our library so special.

Cape Porpoise Library is a place to catch up with friends, local news, and discuss favorite books. We always have a jigsaw puzzle and/or adult coloring books laid out on the table for all to enjoy. Last December, the library had an open house during the tree lighting ceremonies of Christmas Prelude. It was very well received with more than 70 adults and children stopping in our cozy space. Our library is an important part of the Cape Porpoise community, and we welcome all to stop in and see why.

I wish to thank our friends who generously provide the library with monetary donations and occasional memorial designations. I also thank the Town of Kennebunkport for inclusion of Cape Porpoise Library in the annual Town budget.

I thank Linda Boardman who cheerfully checks out books at the library on Fridays and Saturdays, and the Atlantic Hall Board of Trustees for their guidance and continued support.

Mary L.A. Giknis, Library Director

LOUIS T. GRAVES MEMORIAL LIBRARY REPORT

THANK YOU to all residents and friends of Kennebunkport for a wonderful year. 2016 was filled with so many exciting, monumental, awesome, moments here at the Library.

The ladies upstairs (Terri Bauld and Stephanie Moore) spent countless hours planning and executing wonderful programs for kids of all ages. Parents appreciate happenings on early-release Wednesdays, drop-in craft days, Lego days, weekly storytime, summer events, and special vacation gatherings. Classroom visits continue to occur weekly at all surrounding schools.

The ladies downstairs (Kay Beote, Lisanne James, Judy Merrill, Judy Finnegan, and Barbara Ripton) continue to process and get books, movies, and magazines out for patrons. They also help with research, faxing/scanning, suggest eateries in the Kennebunks, give directions to travelers, and deliver materials to shut-ins.

The volunteers—Anne Adams, Kitty Bassett, Jan Brennan, Miriam Clasby, Judy Corrello, Judy Drinon, Joan Dawson, Mette Egglinton, Carol Ellis, Ruth Fernandez, Gretchen Graham, Sandy Green, Linda Littell, Harriet Mill, Kathy Pence, Janet Powell, Vivi Schubert, Lillian Ross, Gert Reoch, Ben Stephens, Suzanne Stohlman, and Hal and Barbara Worthley.

We also received assistance from lots of kids during the summer and after school. A big thanks goes to Rachel, Nicholas, Phoebe, Ella, Lucy, Janelle, Madalyn, Chris, and Annabelle. The library is fortunate to have such conscientious, willing individuals to help with weekly desk shifts, mailings, and odd jobs—upstairs and down. A little over 5,000 hours were recorded in 2016.

Library volunteers and friends in 2016 that we lost: Nancy Kling, Hal Worthley, Walter Irving, Dr. Lyman Page, Rae Dwight, Anne “Rusty” Zeddis, and Bob Butler. Our thoughts and prayers continue to be with their families.

In the last few years, it has become necessary to take a good long look at replacing the Perkins House with something more efficient, healthy, and quite frankly—just better. We will never forget the mold, shuffling books back and forth in all kinds of weather, the muddy walkways, the crazy sump pump, pricing and stocking thousands of books, the red ants, skunks, raccoons, mice, squirrels, and bats, and the inadequate heat and A/C. We will also never forget the fact that that building helped us create community. It is why we can now do what we need to do during our next chapter.

Since 1998, it has been a place where one could:

Make a salad in a jar	Get a Girl or Boy Scout badge
Be tutored by RSU instructors	Buy books, movies, or CDs—cheap
Play cribbage	Paint rocks
Meet with fellow DAR members	Host a flower show (or 6)
Store rare and unique books	Grow pumpkins
Have a picnic with classmates	Plant a garden and cut flowers
Blow up a wheel of Brie cheese	Be a writer in residence
Listen to speakers	Watch magic happen
Make paper	Eat ice cream sundaes

The Perkins House, 3 Mast Cove Lane, Kennebunkport, Maine

- | | |
|----------------------------------------|----------------------------|
| Dig for pirate treasure | Scrapbook with friends |
| Learn conversational French | See a play |
| Hold a Condominium Association meeting | Be Part of a History Group |
| Have your face painted | Store cemetery records |
| Discuss finances | Breed skunks |
| Gather with other new moms and babies | Prepare for SATs |

Sometimes change means sacrifice . . . and by sacrificing that space in a more positive way, we will be able to offer all residents and visitors a healthier, more efficient—and quite frankly, better space. By September of 2017, we will have completed the Mothers Wing to include an elevator, a business center, adequate bathrooms, a community room for everyone to use and enjoy, a bigger children’s area, better lighting, a bit more parking, and a tranquil reading garden. None of this could be done without the help of Kennebunkport residents, patrons of the library, and town officials. Thank you!

Mary-Lou Boucouvalas, Library Director

SCHOLARSHIPS AVAILABLE FOR KENNEBUNKPORT STUDENTS

The Olympian Club of Kennebunkport Scholarship Fund was established in 1996 with gifts from friends and members of the Olympian Club of Kennebunkport. The fund is to benefit the University of Maine at Orono; however, campuses within the University of Maine system are eligible as well. Dedicated to “all the ladies who were ever members of the club,” its purpose is to provide scholarship assistance for undergraduate students studying Nursing. A second preference shall be for students in Pre-Medical/Dental/Optomety, and a third preference shall be for students of any discipline. The minimum award is at least one-third of the tuition amount, including mandatory fees.

To qualify, recipients must be residents of Kennebunkport at the time of high school graduation and must have a financial need and a reasonable academic record. They must be of good character and show good work habits.

Interested students should contact the Office of Student Financial Aid at one of the following four locations, which have nursing programs: University of Maine, Orono, Maine 04469; University of Southern Maine, 96 Falmouth Street, PO Box 9300, Portland, Maine 04104-9300; University of Maine at Fort Kent, 25 Pleasant Street, Fort Kent, Maine 04743; University of Maine at Augusta, 46 University Drive, Augusta, Maine 04330-9410.

January 17, 2017

To the Citizens of Kennebunkport:

I am pleased to once again provide this update on the educational progress of Kennebunkport students. 2016-2017 has been another successful and exciting year for Consolidated School. Perhaps most notably, Labor Day weekend was spent moving into the newly renovated classrooms. Construction continued into the fall with the completion of the gymnasium and the return of the beloved Friday Morning Meetings. Community tours were led by fifth graders on December 1st, followed by a ribbon-cutting ceremony on the 2nd. We were pleased to officially open the renovated building to the public in time for Prelude.

Academically, this year, RSU 21 expanded robotics and engineering programming, increased 1:1 laptops in grades 1-5 and 2:1 laptops in kindergarten, and entered year two of a new, evidence-based literacy and math curriculum. The teachers at Consolidated School worked alongside their grade level peers to develop an aligned curriculum map. This map ensures that teachers are addressing the same standards, administering common assessments, and reporting on student growth in a manner that is consistent with other schools in RSU 21. Identifying and measuring common standards allows for a clear sequence of learning across grade levels and district-wide equity within grade levels. The talented and creative teachers bring these standards to life in their own individual ways. The Kennebunkport Consolidated Trust has been instrumental in connecting the Next Generation Science Standards with our beautiful local history and environment. Over the past few years, students at Consolidated School have scored in the top 5% of all Maine elementary schools on the statewide assessment. Teachers and students at Consolidated School have been very involved in service learning projects, including gathering food for local pantries and animal shelters during their January Sock Hop and participating in Jump Rope for Heart. The Kennebunkport PTA continues to be a model for fundraising, and hosting Circus Smirkus each summer.

At the Middle School of the Kennebunks, students continue to perform and participate successfully in a wide variety of learning opportunities. As the only International Baccalaureate Middle Years Programme in Maine, MSK students are involved in unique, challenging, learning opportunities. As a result, our students excel academically, scoring within the top 5% on the statewide assessment. Further, our students stretch their leadership and team building skills at Camp Kieve in grade 7 and engage in a self-designed community service-learning project during the spring of grade 8. One student focused his community project on an audio walking tour of Kennebunkport for the Kennebunkport Historical Society. This year, MSK's Apple – Certified Swift Center for Innovation and Design partnered with our new middle school STEM teacher to offer an art and design 3-D printing class to students.

Our students at Kennebunk High School are among the most accomplished in Maine. As one of only three International Baccalaureate High Schools in Maine, our students compete globally for academic success. This year, more than 80% of our students took an AP, IB, or Early College class during high school. In several cases, these students will enter college with some credit and as much as a year of college behind them. We have

expanded all pathways for students included college and career preparedness, vocational high school options, and alternative education programming.

I look forward to the coming year and to working with such a talented and dedicated staff, as well as the many parents, volunteers, and elected officials who support us in maintaining high quality schools in our communities. Thank you for your continued support of our students.

Sincerely,

Kathryn Hawes

Note: Recycling is collected every Saturday in GSRB during the summer.

For questions regarding recycling collection service, please call Oceanside Rubbish, Inc. at 646-3230; or April, at the Public Works Department at 967-5728.

TRASH AND RECYCLING COLLECTION SCHEDULE

In Kennebunkport, trash is picked up weekly. Recycling is picked up every other week as indicated on the calendar on the opposite page (except at Goose Rocks Beach during the summer as indicated below.)

Trash and recycling containers may be put out no earlier than 4 PM the day prior to scheduled collection and should be removed within 24 hours of pick up.

Hours of trash and recycling collection: No earlier than 6:30 AM and completed no later than 6:00 PM.

Noncollection holidays: Thanksgiving, Christmas, and New Year's. Alternate collection days will be advertised on the Town government Cable Channel 2 and the Town Website at <http://www.kennebunkportme.gov>.

GOOSE ROCKS BEACH TRASH AND RECYCLING COLLECTION SCHEDULE

Trash and recycling collection occurs on Fridays in the Goose Rocks Beach area in the spring, fall and winter.

In the summer, the collection schedule changes to Saturdays as follows:

GOOSE ROCKS BEACH SUMMER OF 2017 COLLECTION DAYS

Both recycling and trash collection occurs
every week
on Saturdays beginning
June 17, 2017, through September 9, 2017

The schedule returns to Friday pick up of trash on September 15, 2017, Also, on this day, recycling pick up starts back to every other week.

Hours of collection start at 6:30 A.M.

SINGLE-STREAM RECYCLING

The Town of Kennebunkport uses the "single-stream" recycling process. This process means that all recycling (paper and commingled containers) can be put into one recycling bin. Oceanside then brings the combined recyclables to a facility where they are sorted on a system of conveyor belts.

Sorting the recyclables is **not** needed. Please continue to put all trash in trash bins, and all recycling in recycling bins.

If you have any questions, please contact April, at the Public Works at 967-5728.

HOW TO IDENTIFY YOUR PLASTICS FOR RECYCLING

With the large variety of plastics available, the average consumer often has difficulty distinguishing between the types of plastic discards. To facilitate recycling, these items are coded by the manufacturers. A coding numeral can be found on the bottom of a plastic container. For easy identification of your plastic items, please refer to the following numbering system:

Plastic Recycling Reference Chart		
<i>The following items will be picked up curbside:</i>		
Coding Number	Item	Description
1	Polyethylene Terephthalate (PET)	Soda bottles, generally referred to as custom PET (peanut butter type jars, dishwashing liquids, liquor bottles).
2	HighDensity Polyethylne (HOPE)	Clear (white) containers or colored containers. The clear bottles (milk and water jugs) are also known as natural HDPE. Colored bottles will primarily consist of liquid detergent bottles, motor oil bottles, cosmetic bottles.
3	Vinyl or Polyvinyl Chloride (PVC)	Crystal clear cooking oil bottles, shampoo bottles, etc.
4	Low Density Polyethylene (LDPE)	Most LDPE will be in the form of plastic bags. Additionally, plastic lids and some squeeze bottles are made from LDPE.
5	Polypropylene (PP)	These bottles include syrup containers, ketchup bottles, yogurt containers, margarine tubs, and most bottle caps.
6	Polystyrene (PS)	Numerous molded products are made from PS.They include coffee cups, meat trays, plastic utensils, videocassette cases..
7	A catch all numbering for materials not included above.	Most often packaging in number 7 containers will consist of glues or metal-based materials.

There are also other methods which you can use to differentiate between bottles. Most mistakes are made in segregating PET from PVC bottles; however, these types of bottles can be readily distinguished by the molding scar on their bottom. PVC has a horizontal scar (often referred to as a “smile”). When a PVC bottle is bent or creased, a white mark will show at the point of the bend. PET has a circular scar (called a “bullet hole” or “nipple”).

For questions regarding recycling or trash collection service, please call Oceanside Rubbish, Inc. at 646-3230, or April at the Public Works Department, at 967-5728.

RECYCLING REFERENCE CHART

Items picked up curbside

Items	<u>Recycle these items</u>	<u>How to prepare items</u>	<u>Exclude these items</u>
Glass	Brown & clear glass. Bottles and jars.	Rinse clean. Remove lids. Co-mingle in bin.	No broken jars or bottles. No drinking glasses. No light bulbs. No window glass. No ceramics or china. No green glass.
Plastics #1-7	Plastics numbered 1 through 7.	Clean containers. Flatten to save space. Co-mingle in bin.	No plastic bags, even if they are identified as #2 plastic. No motor oil or hazardous waste containers.
Metal and Tin Cans	Tin cans Aluminum cans Empty paint cans Aerosol cans Aluminum foil and plates	Empty and clean containers. Do not put in sharp lids (unless crushed in can). Co-mingle in bin.	No food waste left in cans.
Paper	Mixed paper Junk mail Pressed board (cereal boxes, etc.) Office paper	No need to bundle.	Do not use plastic bags to bundle paper together.
Newspaper and Magazines	Newspapers Catalogues Magazines Telephone books	No need to bundle.	Do not use plastic bags to bundle paper.
Corrugated Cardboard	Corrugated boxes	Flatten and cut up to size no larger than 4 ft by 4 ft.	If wet outside, wait until next recycling day.
Returnable Bottles and Cans	Any deposit	Rinse clean. Remove lids. Co-mingle in bin.	Bottles can have any deposit label. Check wine bottles.

For questions regarding recycling collection service, please call Oceanside Rubbish, Inc. at 646-3230.

TOWN ONLINE SERVICES

Pay online with a credit card or electronic check:

- Parking tickets
- Personal property tax
- Real estate tax
- Sewer bills.

There is a convenience fee for all online services.

Convenience Fees

Electronic Checks	\$2.95
Real Estate and Property Tax	2.95%, minimum \$2.00
Parking Tickets and Sewer Bills:	

Payment Amount	Fee
\$0.00 to \$50.00	\$2.00
\$50.01 to \$100.00	\$3.00
\$100.01 to \$200.00	\$6.00
\$200.01 to \$300.00	\$9.00
\$300.01 to \$400.00	12.00
\$400.01 and above...Add \$3.00 to listed total for each \$100 payment range or portion thereof.	

Vehicle **re-registrations** can be processed with *e-checks only* through Rapid Renewal program. Convenience fees dependent upon vehicle type.

For online services, visit the Town Website at www.kennebunkportme.gov and select the top, online “E-Payments” tab.

TOWN BOARDS/COMMITTEE MEETING BROADCASTS AVAILABLE ONLINE

The Town offers as a public service, online availability to all town board and committee meetings that are broadcast on local cable channel 2. These meetings may be accessed via the internet at <http://www.townhallstreams.com/locations/kennebunkport-maine>, or visit the Town’s Website at <http://www.kennebunkportme.gov> and click on the “Meeting Videos” button for on-line meetings.

All meetings broadcast on cable channel 2 such as the Board of Selectmen, Planning Board, Growth Planning Committee, and RSU #21 are streamed “live” on the internet at the above address and available for viewing at any time for one year after the initial broadcast.

The web access is hosted by Town Hall Streaming, a Maine company based in York.

This service allows residents to view meetings at individual's convenience. It benefits households that do not have cable service and also property owners who do not live year-round in Kennebunkport.

In addition to board and committee meetings, the Kennebunkport Town Hall Stream's site will make available other local broadcasts of interest.

THE TOWN OF KENNEBUNKPORT IS ON FACEBOOK!

The Town is hoping to communicate more directly with citizens and visitors on Facebook.

Please like us at <https://www.facebook.com/townofkennebunkport>.
